

Pearson Tutoring 2022–23

A guide to support you with tutoring funding

Why tutoring?

The ongoing impact of COVID-19 to children's education has meant that schools have seen a rise in the number of pupils needing specific, personalised intervention support. In response to this demand the government created the National Tutoring Programme (NTP), to help hundreds of thousands of children to fill in the gaps in their learning.

In 2021, as an approved partner Pearson Tutoring helped over 9,000 children across England and the positive impact of that tutoring has been wonderful to witness. We're particularly proud of the quality of our tutoring and our ability to reach those most disadvantaged in some of the least well-represented regions.

We only use qualified UK teachers with experience of the National Curriculum and an understanding of the challenges faced by your school.

What type of tutoring is available?

This year the Department for Education will provide ring-fenced grant funding directly to schools to support provision of school-led tutoring. The grant is calculated to cover 60% of the cost of tuition (based on average costs of tutoring) with schools contributing the remaining costs.

There are three types of subsidised tutoring under the School-led Tutoring grant:

- 1. Tuition partners** – This year schools may only use approved tuition providers from the DfE list, to conduct tutoring sessions. Pearson Tutoring continues to be a quality assured approved supplier under the government funded tuition programme.
- 2. School-led Tutoring** – Schools may also use their own staff to provide sessions, this can be current staff or those newly engaged for this purpose.
- 3. Academic Mentors** – These will be a part of their school's staff team and will be supported and managed by the school to deliver tutoring that is appropriate, timely, and linked to their curriculum. They will receive a core salary funded by the DfE. For more information visit [gov.uk](https://www.gov.uk).

How is your funding calculated

The amount that schools will receive will be proportionate to the number of Pupil Premium students on roll.

This funding is paid in termly instalments via local authorities and academy trusts and is intended to cover 60% of the unit cost of tutoring, the remainder of the cost may be covered using pupil premium or other core school budgets.

For the 2022/2023 school year the government will provide the following funding for NTP:

- Mainstream schools receive £162 per PP-eligible pupil
- Non-mainstream schools receive £423 per PP-eligible pupil.

NTP funding can be used to pay for 60% of the total cost incurred by your school to deliver tutoring. These costs are:

- £18 for mainstream schools, of which the DfE subsidy will be £10.80 (60%)
- £47 for non-mainstream schools, of which the DfE subsidy will be £28.20 (60%)

How can I use my National Tutoring Programme funding?

	Benefits	Challenges
Tuition partner – using Pearson tutoring	<ul style="list-style-type: none"> • Start immediately • No recruitment fees/ employment processes • No additional training or checks are needed for our tutors • Option to be 60% subsidised using School-led tutoring grant • Can choose 1:1, 1:2 or 1:3 student/tutor ratio • Unlimited sessions and pupils • Sessions can be done either in school or at home • We are a quality assured NTP tuition provider 	For state-maintained schools in England only
School-led Tutoring – hiring new staff/ temporary	School can pay their own staff for additional hours	<ul style="list-style-type: none"> • Recruitment costs • Some school staff/non-NTP partners will need to do an accredited training scheme • Increasing already stretched teacher workload • Some students benefit from a new teacher / different approach • Capacity to deliver multiple small group sessions

Please note:

All state-maintained schools in England are automatically part of this scheme and will not have to apply for funding; it is not an opt-in scheme, so schools will receive the funds directly in three tranches. Please note any funding not used on catch up activities by 31st August 2023, will have to be returned to the DfE.

Why Pearson Tutoring?

Pearson Tutoring is an NTP quality assured tutoring partner. As providers of qualifications and resources from ages 5-19, we are in a unique position to provide high-quality tuition from qualified UK-based teachers, using standardised lesson materials and assessments.

We provide Tutoring sessions for:

- Year 4 to 6 English, reading and Maths
- KS3 & KS4 English, Maths and Science.

We are proven to work!

In 2021 we provided tutoring sessions to over 9,000 students in primary and secondary schools across England, helping them to increase assessment scores by over 65% and even more for pupil premium children (up to 80% for Year 11s and 90% for Year 6s).

How much does Pearson Tutoring cost?

Per pupil, per session subsidised/with grant (3 pupils in a session)

£7.20

Per 15-hour block (subsidised)

£324 + VAT
* approximate subsidised cost

Unsubsidised price per 15-hour block unsubsidised

£810
* Price we will invoice

What can Pearson Tutoring offer?

- A government approved tuition provider.
- Qualified, experienced UK teachers who work in partnership with your school to understand the needs of your pupils.
- Flexible booking – school-time, breakfast clubs, evenings, weekends.
- Dedicated set-up support – get up and running within a week.
- Quality interactive teaching and learning experience.
- Expert developed lesson materials & assessments.
- Reporting and feedback to ensure progress is captured.
- A 15-hour block of sessions with pre and post block test to analyse your student's progression.
- An online platform, Bramble, that allows students to search key words and review past sessions from home for additional revision - perfect for those who are auditory learners.
- Bramble offers a robust tutoring environment as all sessions are recorded and can be reviewed by schools at any time. Their technology including the birds eye view allows tutors to manage a completely personalised learning experience for each student.
