## BTEC Level 2 in Travel and Tourism

EXETER COLLEGE

### How do you think BTEC helped get you where you are now?

The BTEC Level 2 in Travel and Tourism helped me to get this job because I could find out about the many different areas of the industry. My teachers had industry experience, so they told me what it was like and what to expect. My manager has told me that I demonstrate knowledge that she would not expect someone new to the job role to have. This is because the BTEC has given me a good overall knowledge of the industry and prepared me for the workplace.

### What was your BTEC experience like?

I enjoyed my BTEC experience. It was high pressure at times but that has prepared me to work in a high-pressure industry. I especially enjoyed the more practical units, Holiday Reps and organising a study visit.

### What did you like most about taking a BTEC?

I really enjoyed the social side of college, meeting new people and making friends. It was good to have a mixture of exams and coursework. It taught me that I had to be organised as there was a lot of assignments.

### How has your confidence changed since taking a BTEC?

I was quite confident anyway, but it has taught me to be more professional in certain situations, for example, when giving presentations I have practiced and improved my communication skills.

### Progression pathway

My manager has told me that I demonstrate knowledge that she would not expect someone new to the job role to have. This is because my BTEC gave me a good overall knowledge of the industry and prepared me for the workplace.”

### How is studying BTEC preparing you for your future career?

The BTEC helped me to prepare for my career as a Tui Travel Advisor as I researched different destinations and why they are suitable for meeting different customer needs. I also learned about how different organisations might work together to provide services for tourists. We also planned itineraries which has really helped me in my current role.

### Would you recommend BTEC?

Yes, I would recommend a BTEC course as you can choose the course that is specific to the industry you want to work in and learn all about that industry. This means you are more interested in the topics you are learning. ■
