

BE THE FUTURE OF TECH

Where can **GCSE Computer Science** lead you?

Discover what it takes to become a **Digital Animator...**

What is a Digital Animator?

A digital animator uses computer software to create animations for films, video games, advertisements, and other media. They blend artistic skills with technical expertise to produce exciting visual content.

Key Responsibilities:

- ✓ Developing storyboards and ideas for animations.
- ✓ Creating 2D or 3D animations using software like Adobe After Effects, Blender, or Maya.
- ✓ Working with directors, writers, and other artists to agree on creative vision.
- ✓ Keeping up-to-date with industry trends and techniques to enhance animation quality.
