

BE THE FUTURE OF TECH

Where can GCSE Computer Science lead you?

Discover what it takes to become a **Videographer...**

What is a Videographer?

A videographer captures video footage for various purposes, including films, commercials, events, and online content. They use technical expertise and creative vision to produce compelling visual stories in film.

Key Responsibilities:

- ✓ Planning and carrying out video shoots, including setting up equipment and lighting.
- ✓ Operating cameras and recording equipment to capture high-quality footage.
- ✓ Editing video content using software like Adobe Premiere Pro or Final Cut Pro.
- ✓ Collaborating with clients and creative teams to understand and deliver what they need.
- ✓ Staying updated with industry trends and techniques.
