

Do you know Revel?

Communication

There it is. And there. And there.

When your student lights up because they just got it. You watch it in real time, and you can't get enough of it. Let's make it happen more often.

Enter Revel. A digital learning platform that makes your students feel the connection between their classroom and the world.

Revel doesn't just bring learning to life; it brings real life to learning. Communication is never a one-way street, and neither are your students' learning experiences.

Students learn best by doing, and Revel's interactive features let them do more in your course.

With Revel Communication, course concepts come alive through videos and animations woven directly into the author's narrative.

Shared Media makes it easy to put concepts into practice by allowing students and instructors to share and comment on speeches, videos, documents, images, and more, with just a few clicks.

Plenty of **Sample Speeches** are built into each Revel Communication course to help students learn by example as they watch, analyze, and discuss informative and persuasive speeches.

Finally, **interactive maps, figures, and tables** contain Social Explorer technology that allows students to engage with real-world data, instead of simply viewing it.

Revel inspires and empowers students to apply their learning, not just in your course, but in their lives today, and their future careers.
