Register for your Pearson course

First, make sure you have these three things:

1. **Email**: If you already have access to another Pearson app, your existing username and password can be used again. If you need to set up an account, you will need a valid email address which you check regularly.
2. **Course Invite Link**: Your instructor is responsible for providing the Course Invite Link to you. You may receive an invite link via email from your instructor, on your syllabus, or through class set-up materials. It looks something like this:

> *https://console.pearson.com/enrollment/XXXXXXX*

3. **Access code or credit card**: You can purchase an access code where you buy your textbooks. Or you can buy instant access with a credit card or PayPal account during registration.

Next, get registered:

1. Enter the Course Invite Link in your web browser. Please use the recommended browsers and settings.
2. If you have a Pearson account, enter your username and password. Otherwise, create a new account. If you create an account, you'll need to confirm your email address from a message sent to the email you specify.
3. From your "My Courses" page, choose how you would like to access the course. Your choices include: Redeem a pre-purchased access code, buy access using a credit card or PayPal account, or choose Temporary Access if you're waiting on financial aid.
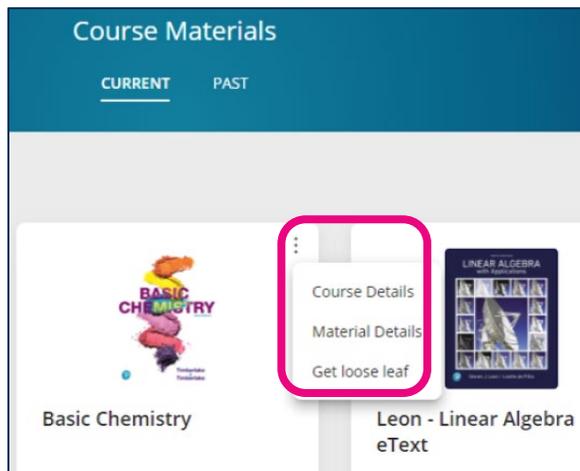

That's it! To access your Pearson course throughout the term, log in from console.pearson.com.

Need help?

Visit Pearson Support or reference the Help topics in your Pearson account.

Want a printed version?

1. From the options menu for your Pearson course select Get loose leaf to request a printed version of your materials.

2. Confirm the price and version desired and select either Add to Cart or No Thanks.
