

Pearson NCCERconnect Spotlight Video

TRANSCRIPT

Narrator:

NCCERconnect is an online courseware suite designed to prepare students and craft trainees for class, testing, and careers in construction.

Textbooks are completely converted to accessible online formats with full audio, making learning flexible and convenient. Flashcards, search functions, and notetaking within the eText allow students to dive deeper into their learning experience.

Interactive quizzes and concept checks reinforce understanding while building essential skills.

And with instructional videos, students and trainees see how course concepts apply directly to their careers.

Ladder Safety Video Instructor:

You have an extension ladder and over here you have an A-frame ladder. Now they both have their own purposes and use.

Narrator:

Self-guided learning allows students and trainees to learn at their own pace, anytime. And Dynamic Presentations refresh mastery of both concepts and skills.

For instructors, managing courses has never been easier. The comprehensive gradebook and resource suite allow you to communicate, track progress, and support students every step of the way, all fully LMS compatible.
