AP[®] Science: AP[®] Environmental Science

Environment: The Science Behind the Stories, ©2021, AP[®] Edition

Title Overview

A combination of real stories and case studies and the latest science and research. This edition has local connections activities and potential solutions with success stories features.

- **Practical & up-to-date content:** Science Behind the Story essays provide examples of real research on environmental issues and show how scientists develop hypotheses, test predictions, and analyze and interpret data. Integrated Central Case Studies with a contextual framework includes real people, real places and real data behind environmental issues.
- **Skill building:** Data Qs are data analysis questions with figures to develop scientific literacy skills, Weighing the Issues questions develop critical-thinking skills, tackle ethical questions, and how to apply them. Calculating ecological footprint activities and Interactive Data Analysis Activities provide interaction with data and graphs.
- **Comprehensive review:** Success stories highlight forward-thinking solutions with one solution per chapter. Connect and Continue revisits the case study from the start to the end of every chapter.

The Pearson Sample Credentials for this title permit multiple users in multiple locations to review the text and its features simultaneously. As such, these credentials represent all categories of digital access requested (demo, limited, and full access). If this title is selected for adoption, Pearson will provide demo access for the full adoption period and/or provide alternate logins, as needed.

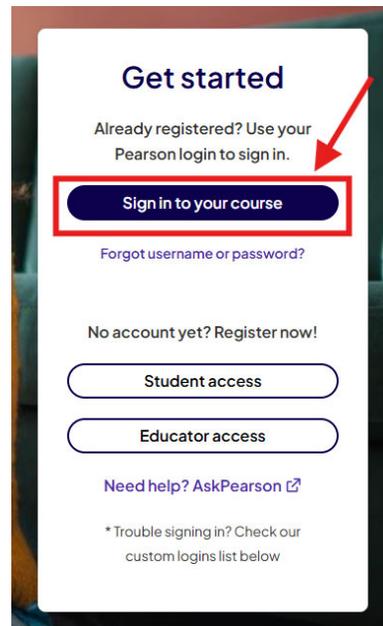

Access Credentials

1. Navigate to:

<https://mlm.pearson.com/>

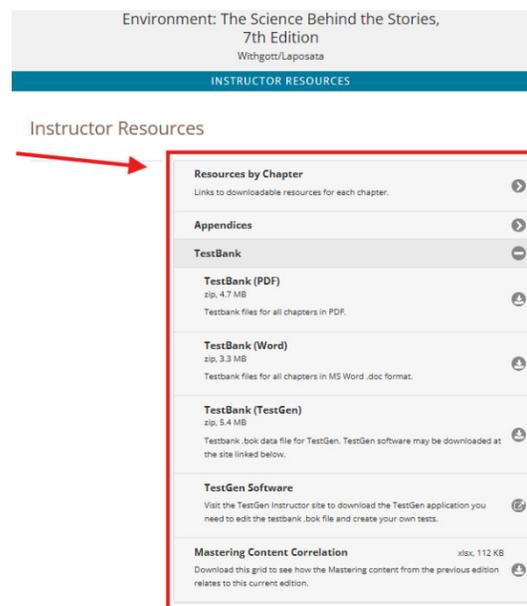

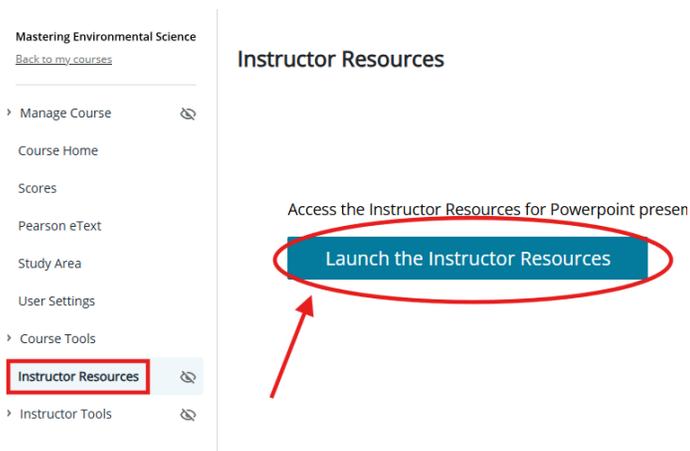

2. Select “Sign in to your course”

- Enter the credentials:
- Username:
msscienceandcte2025
- Password: MSAdoptions2025
- Select “Sign in”

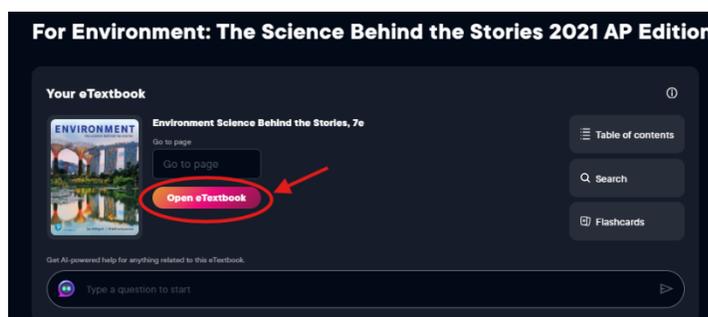

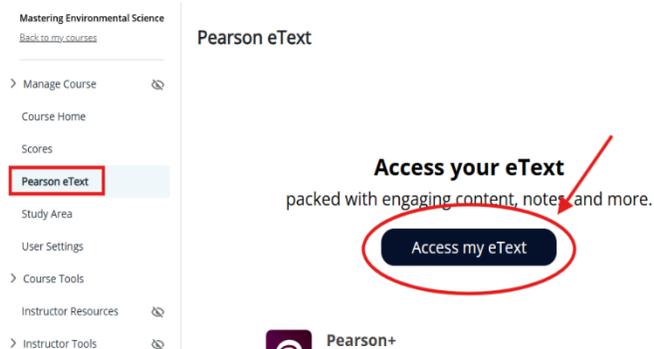

3. Accessing a Course

- Select the course/title desired by hovering over the title and clicking.
- On the Course Home Screen, choose the materials you want to review.
- To review the Instructor Resources, select “Instructor Resources” from the left menu, then “Launch the Instructor Resources”.
- When selected, a new tab will open.

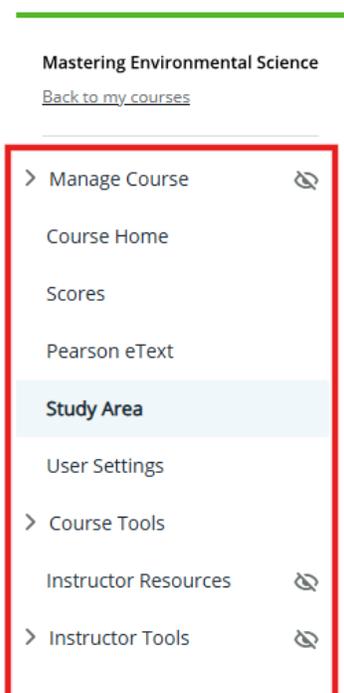

4. Reviewing the etext

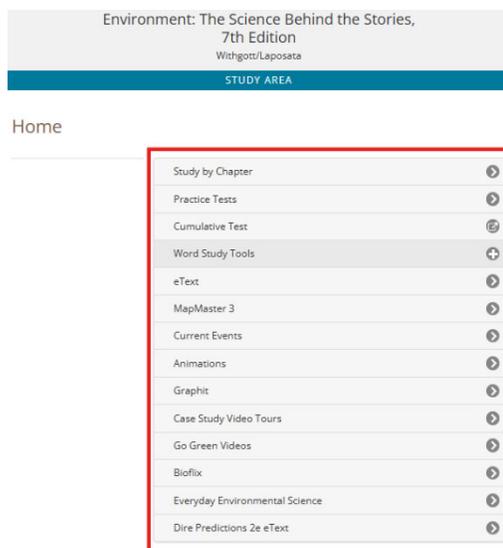

- From the first tab's left menu, select "Pearson eText", then "Access my eText".
- A new tab will open. Select "Open eTextbook."
- In the eTextbook, use the left menu to explore the AI Study Tool, table of contents, notebook, flashcards, and other features.

5. Reviewing Additional Resources

- From the first tab, use the left menu to explore options under the "Study Area" to view student resources, "Dynamic Study Modules", "Instructor Tools", etc.
- Note:** From the Student view, the course looks like the course seen here, except that the "Modify" buttons are not available, along with other options showing the "hidden from student view" icon.

6. Guided Platform Walkthrough

- For a guided Mastering walkthrough, including an overview of key features, please visit:
