Secondary Science: Marine and Aquatic Science 1 & 2
Essentials of Oceanography, © 2020

Title Overview

Essentials of Oceanography, 13th edition is a brief oceanography program that offers engaging features that keep students interested and excited about oceanography. This edition emphasizes the process of science throughout and provides understanding of how scientists think and work, by developing scientific skills and interpreting data.

- **Key concepts:** Highlighted concepts allow for checking understanding, while key figures provide studies, study resources, critical thinking questions, and active learning exercises.
- **Data-driven activities:** Data and creature features offer fun facts about marine animals, while Diving Deeper boxes share relevant examples and stories. Data-rich figures, graphs, and maps enhance understanding. Learning exercises and questions develop critical thinking, evaluation, and inquiry skills.
- **Process of science:** Provides an understanding of how scientists think and work, and highlights an area of oceanographic inquiry, background, hypothesis, methods, and results reporting.

The Pearson Sample Credentials for this title permit multiple users in multiple locations to review the text and its features simultaneously. As such, these credentials represent all categories of digital access requested (demo, limited, and full access). If this title is selected for adoption, Pearson will provide demo access for the full adoption period and/or provide alternate logins, as needed.

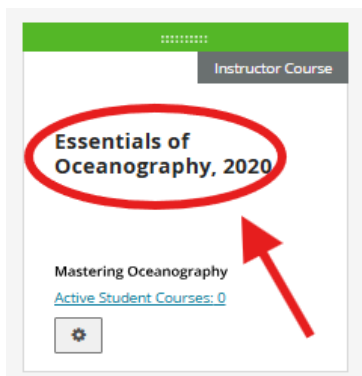

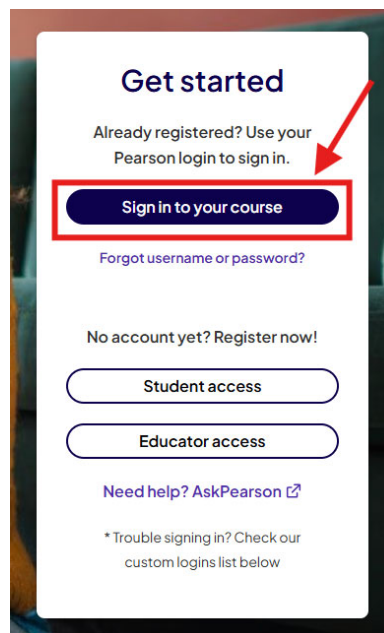

Access Credentials

1. Navigate to:

<https://mlm.pearson.com/>

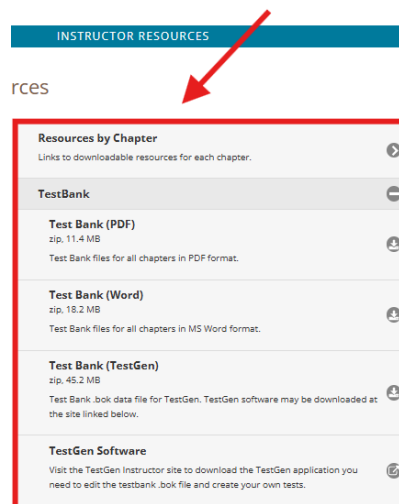

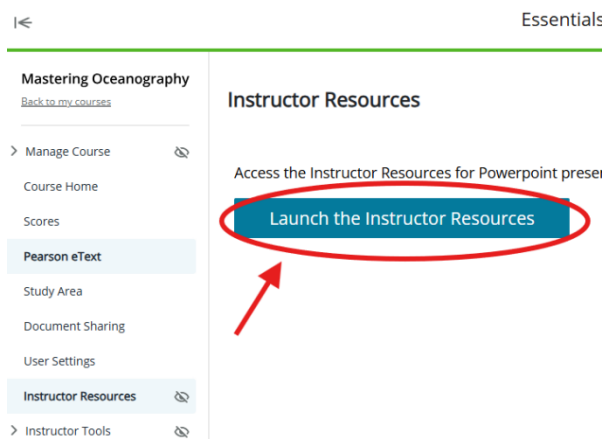

2. Select “Sign in to your course”

- Enter the credentials:
- Username:
msscienceandcte2025
- Password: MSAoptions2025
- Select “Sign in”

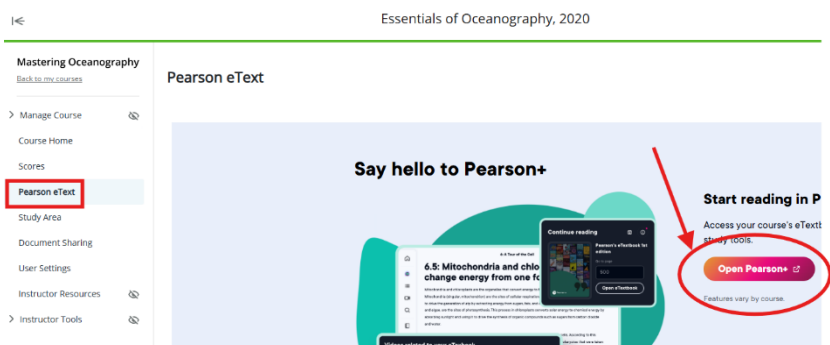

3. Accessing a Course

- Select the course/title desired by hovering over the title and clicking.
- On the Course Home Screen, choose the materials you want to review.
- To review the Instructor Resources, select “Instructor Resources” from the left menu, then “Launch the Instructor Resources”.
- When selected, a new tab will open.

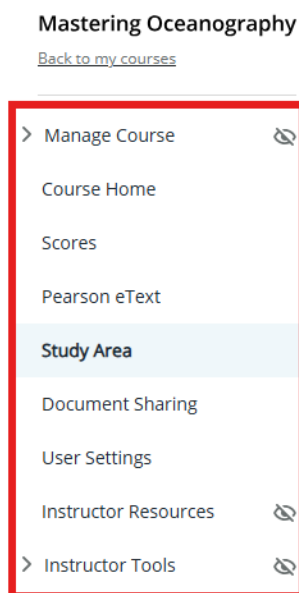

4. Reviewing the etext

- From the first tab's left menu, select "Pearson eText", then "Open Pearson+".
- A new tab will open. Select "Open eTextbook."
- In the eTextbook, use the left menu to explore the AI Study Tool, table of contents, notebook, flashcards, and other features.

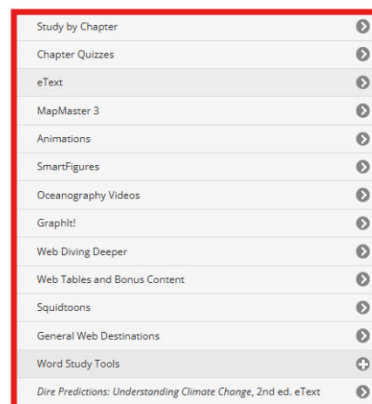

5. Reviewing Additional Resources

- From the first tab, use the left menu to explore options under the "Study Area" to view student resources, "Dynamic Study Modules", "Instructor Tools", etc.
- Note:** From the Student view, the course looks like the course seen here, except that the "Modify" buttons are not available, and the "Manage Course", "Instructor Resources", and "Instructor Tools" areas are not available.
