# Reviewers Guide

Bid ID#: 19832
Course Title:
Introduction to Engineering
ISBN: 9780138046446

Main Program components: Student
Edition Hardcover with six (6) MyLab
digitally delivered access codes

Program Description

Introduction to Engineering provides an overview of engineering as a profession as well as an introduction to the tools and processes used in a variety of engineering disciplines. Scenarios and group projects help engage students in the problem-solving process while developing the creativity and critical thinking skills they will need to advance in their academic and professional careers. **This text aligns to the YouScience® Engineering Principles certification exam**.
