

THE NEXT GREAT SUPERHERO

Description

Answers will vary.

Amy looks like other high school students, but when she spins in a circle ten times she becomes Amazing Amy. Amazing Amy is a superhero. She wears red leotards with a white mask and white cape. Amazing Amy helps the police in her town catch criminals. She does not have an assistant. She can fly as fast as an eagle. She can swim like a dolphin. She can run like a cheetah. She can jump as high as a ten-storey building. These help Amazing Amy chase and catch criminals. She can also stop bullets with her hands. She can listen through walls, but she cannot see through walls. This allows Amazing Amy to listen to criminals' plans, but she cannot see how many criminals there are. Amazing Amy also has a multi-function watch. The watch has a laser for cutting through things, a map for finding her way anywhere in the world, a mirror for checking her makeup and a watch for telling the time!
