

Fifty-Fifty Book 1: Unit 11 Worksheet (B)

A TV GAME SHOW

You work on a TV game show. Your job is to write the questions and answers that are to be used.

On the show, three contestants take turns choosing a block from the picture. After that contestant hears the answer, he or she guesses the question. If they are correct, they win the money shown on the block. If they are wrong, the other two contestants try to guess the question to win the money.

Write questions for 2–5 below. Then write the questions and answers for numbers 6–10. The questions must ask about likes and dislikes. Do not use the same question or answer more than once.
