

# Master 39: Activity 14 Assessment

## Skip-Counting with Leftovers

### Skip-Counting with Leftovers Behaviours/Strategies

Student does not arrange the counters into groups of the correct size.

Student mixes up or does not know the number to skip-count by.

Student mixes up the numbers in the skip-counting sequence.

"5, 10, 20, 30, 40"

### Observations/Documentation

Student skip-counts but does not include the leftovers in the total.

"5, 10, 15, 20"

Student continues to skip-count by the same number to count the leftover counters.

"5, 10, 15, 20, 25, 30"

Student sees groups of counters as one unit, fluently skip-counts by the unit, then counts on by 1s to find the total.

"5, 10, 15, 20, 21, 22"

### Observations/Documentation
