

# Master 11: Activity 6 Assessment

## Extending Patterns

Extending Patterns Behaviours/Strategies		
<p>Student randomly extends the pattern.</p> 	<p>Student has difficulty recognizing the core of a pattern.</p>	<p>Student identifies the core when it has two elements but has difficulty when it has three.</p>
Observations/Documentation		
<p>Student completes only part of the pattern or makes errors when extending it.</p> 	<p>Student accurately extends the patterns but has difficulty describing them.</p>	<p>Student accurately extends the patterns and uses math language to describe them.</p>
Observations/Documentation
