

Values Our history.

Think and discuss.

- Is it important to know about the past? Why/Why not?
- What can we learn from studying ancient worlds?

seventy-five 75

Ancient Egypt

VOCABULARY

I will learn words to describe life in ancient Egypt.

1 Read, listen, and label the pictures.

coffin hieroglyphics papyrus pyramid treasure

EGYPTIAN WRITING

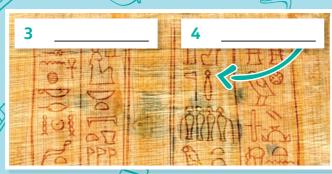

- Egyptian writing hieroglyphics – consists of small pictures.
- The Egyptians made paper from drying and weaving the leaves of the papyrus plant.

EGYPTIAN RULERS

- The ancient Egyptians built **pyramids** as **burial places** for their kings and queens, also called pharaohs.
- Tutankhamun, the "Boy King", became pharaoh at the age of nine.
- The archeologist Howard Carter was amazed when he was digging a hole and found the coffin of King Tut. The coffin contained his mum y. They also discovered about 5,000 objects of treasure: statues, gold jewelry, model boats, chairs, and paintings.

(76) seventy-six

M05 English Code SB6 AmE 23329.indd 76 02/06/2020 16:51

2 Answer the questions.

- 1 What did ancient Egyptians use pyramids for?
- 2 How did the archeologist find King Tut's mummy and treasure?
- Write sentences with the color words from 1.
- 4 Listen and circle T (True) or F (False).
- 1 King Tut is called the "Boy King" because he was a boy when he became king. T/F
- 2 Nobody found his burial place for about 3,000 years. T / F
- 3 The outside of his coffin was covered in gold. T / F
- 4 Like all other pharaohs, his burial place was a pyramid. T/F
- 5 A British archeologist found the burial place in 1920. T / F
- 6 Along with King Tut's mummy, archeologists found about 500 precious objects of treasure.

5 Read and complete. Then discuss.

The treasure that archeologists found with King Tutankhamun's mummy tells us what was important to people at that time. What objects of "treasure" will tell people in the future about what is important to children of your age, today? Make a list.

a cell phone, a soccer team's flag

6 Listen to how we say the colored parts of these words.
Listen again and repeat.

Can you work out what this word means?

Where's the treasure? I'm sure it's over there!

7 Listen. What sound does each word have? Write 1 or 2. Then listen again and check.

 Sound 1
 Sound 2

 work
 where, bear

 curtain ____

Language lab

I wrote my name in hieroglyphics.

Tourists visited the pyramids.

Archeologists didn't find the burial place

GRAMMAR 1: PAST PASSIVE

I will learn about the Past Passive.

1 Watch the video.

Active

until 1922.

2 Complete the text with the verbs in brackets.

They published many books about Egypt.

	apyrus is a plant that 1 was grown (grow) beside the River Nile. The roots 2 (eat) and the leaves 3 (use) by ancient						
	Egyptians to make paper. This is how paper 4 (make).						
ı	First, the hard outer leaves 5 (remove) and the soft insides						
	6 (cut) into strips. They 7 (put) in water						
	for three days to soften.						
	Then the strips 8 (roll) flat and they 9 (lay) next						
ı	to each other in rows, one row on top of the other.						
	A heavy stone 10 (place) on the papyrus for a few days. The natural						
	"sugar" in the leaves helped to stick the strips together, like glue. After a few days, the papyrus						
	was dry and ready to use.						

(78) seventy-eight

M05 English Code SB6 AmE 23329.indd 78 02/06/2020 16:51

3 Number the pictures in order.

Work in pairs. Complete and circle. Then listen and check.

Chess _____ (invent)
1,500 years ago by the Egyptians /
Chinese .

The first coins (use) in 200 / 600 BCE.

The oldest mummies (find)

in Egypt / South America.

The first toothpaste
_____ (make) by the
ancient Greeks / Egyptians, using
salt, pepper, and dried flowers.

In the ancient world, more pyramids

(build) in

Sudan / Guatemala than in Egypt.

Make your own papyrus!

seventy-nine (79)

Story lab

READING

I will read a story about a boy and his dream.

Look at the pictures. What do you think Yusuf was reading about?

"Turn off your light, Yusuf!" I heard my mom call from downstairs.

"Yes, Mom, in a minute!" I said. But I couldn't stop reading my book. It was so exciting! It was a true story of how King Tutankhamun's treasures were found by an archeologist. I was at the part where he was at the bottom of some stairs. There was a door in front of him ... What was behind it? I wanted to know what would happen when he opened it.

But ... why was it suddenly so dark? It was impossible to see in front of me. Luckily, I had a flashlight in my pocket. I turned it on and looked around me.

I was at the bottom of some stairs, deep under the ground! "How strange," I thought. "How did I get here? I don't remember walking down here and opening this small door."

I could see a small room, and through that, another room, where paintings on the walls showed ancient Egyptian scenes and hieroglyphics.

"This is what I was reading about!" I thought. "I'm here in the burial place of the pharaoh!"

An opening in the wall led to another room which was covered from floor to ceiling with treasure. There were thousands of gold objects, jewelry, model boats, and furniture.

I picked up a small gold statue of an eagle and held it in my hand. For the ancient Egyptians, these small objects were symbols of good luck. I couldn't believe what was happening to me. I was in the past ... 3,000 years ago!

The next thing I heard was my mom's voice.

"Wake up, Yusuf!" She was shaking me gently as she took my book out of my hands. She opened the curtains and the sunlight came into the room. "You fell asleep while you were reading last night!"

"So that's what happened," I thought. I felt a little disappointed. So I wasn't in the pharaoh's burial place at all!

"I had the most amazing dream," I said to my mom, "but it felt so real ...!"

"Dreams often feel real," she smiled. "Oh, what's this? I've never seen it before." She picked up an object on my bedside table and gave it to me.

It was a small gold statue of an eagle ...

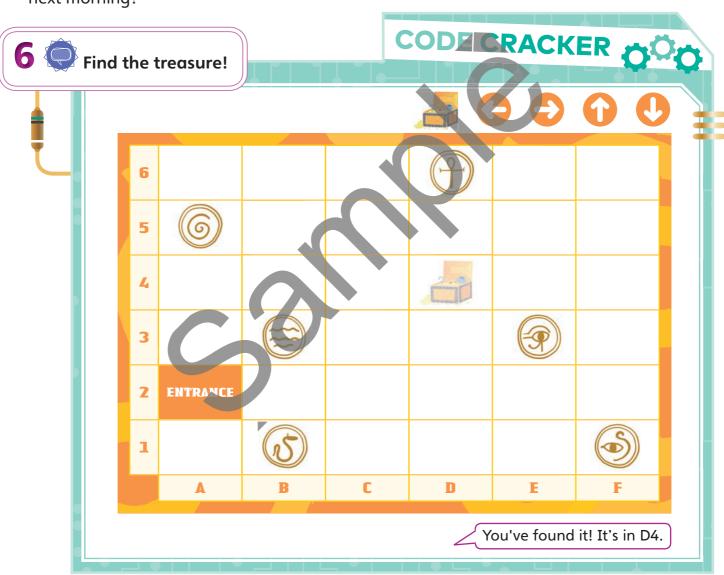

80

iahtv

- 3 Answer the questions.
- 1 What was Yusuf reading about?
- Why couldn't he stop reading and go to sleep?
- Where was he when he put on his flashlight?
- What treasure did he see in one of the rooms?
- 5 Why did Yusuf feel disappointed the next morning?

- Work in pairs. How do you think the statue got on the bedside table?
- **5** Work in pairs.
- **Student A:** You are Yusuf. Tell your partner about your "dream".
- **Student B:** You are Yusuf's friend. Ask questions to find out more
 - about the "dream".

Design your own good luck symbol.

Describe it to a partner.

It's mo

It's made of ...

eighty-one

Experiment lab

ENGINEERING: HOW THE PYRAMIDS WERE BUILT

I will learn about force and friction.

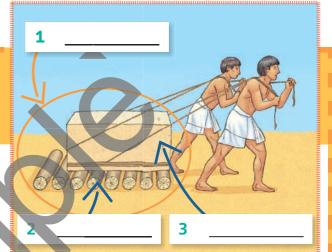

Look, think, and discuss. How did the ancient Egyptians move the stones to build the pyramids? Label the picture. log rope sled

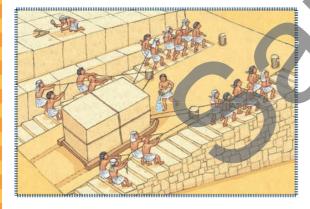

2 Read. THE DYRAMIDS

he pyramids were built long before electricity, machines, or computers were invented. So how exactly were they built?

First, the stone was cut into blocks. The stone was often a long way from the pyramid, so the heavy stone blocks were placed on a sled. Archeologists believe the sled was made with wooden logs. Logs were a good object to roll because they were hard and round. The sled was pulled to the building site with ropes.

A ramp was built all the way up and around the outside of the pyramid. The ramp was made of rough sand, and this caused friction. When a stone was pulled across the dry sand, it dug into the sand. The stone could not be pulled further until the sand was cleared from the front of the sled. The Egyptians solved this problem by adding water to the sand in front of the stone. The water molecules made the sand stick together so that an object could slide over it more easily. This wet sand reduced the friction, and also halved the force needed to pull the object along.

The workers used stairs on each side of the ramp and pulled the sled up with the ropes. The ropes were tied around wooden structures, which helped the workers to pull the blocks more easily.

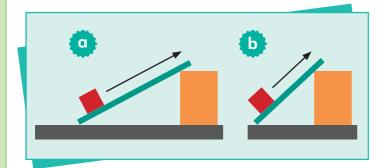

3 Comple	ete the explanation with the words.	a force	a ramp	friction
1	is a push or a pull to make an object me	ove in a ce	rtain dired	tion. To mo
and a first and a second	an an fillest annual annual filles an lannual annual de la chaile a			,

ve an object along a flat surface, from a low level to a higher level, we use 2 ______. When the object moves along a surface, it causes 3 ______.

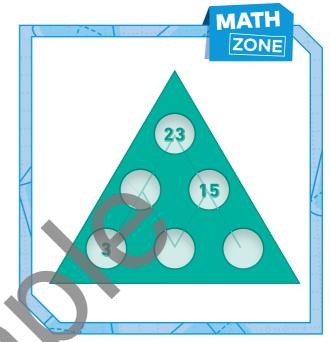

eighty-two

4 PLook at the pictures and answer.

- Which ramp, a or b, needs more force to pull the block, but takes less time?
- Which ramp needs less force to pull the block, but takes longer?
- What difference would there be to the force needed to pull the block if the sand was dry or wet?

5 What are the missing numbers? Add each pair of blocks together to find out the number that appears in the block above them.

EXPERIMENT TIME

How do different surfaces affect friction?

- 1 Build a ramp to slide or push an object up the surface. Make predictions and write them in your notebook
 - What difference do you think the size, shape, weight and texture of the object will make?
 - How fast will it move without a lot of force?
 - What difference will the surface make?
 - Will an object need more/less force to move along a smooth/rough surface?
 - What will happen if you pull the object up dry/wet sand?
- Do the experiment. Were your predictions correct?

lengths of different materials (smooth and rough) small objects of different shapes, weights, and textures (smooth and rough) sand and water

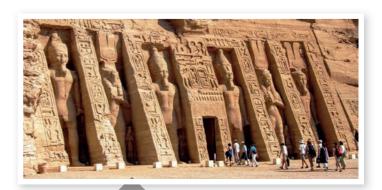

eighty-three (83

A tour back in time

COMMUNICATION: PAST PASSIVE QUESTIONS

I will talk about the history of a place.

- Look at the photo and read the questions. Try to guess the answers.
- **1** When was it built?
- 2 Who was it built by?
- **3** When were the statues discovered?
- 2 Listen to Part 1 of the audio tour.
 Did you guess correctly?
- 3 Listen to the rest of the audio tour and ask your partner.
- 1 When was the temple moved and why?
- 2 How long did it take?
- 3 How were the huge statues moved?

was it	built?		
were they	discovered?		
it they	moved?		
was/were. wasn't/wer	was/were. wasn't/weren't.		
	it they was/were.		

- Write the questions. Work in pairs and circle the correct answer. Then listen and check.
- 1 The Sagrada Familia in Barcelona was designed by Antoni Gaudí / Oscar Niemeyer.

 Who was the Sagrada Familia in Barcelona designed by?
- 2 The British Museum was opened in 1957 / 1759.
- 3 The Tower of London was used as a prison / stadium.
- 4 Make up was / wasn't invented by the Egyptians. Yes, it was. / No, it wasn't.
- Write three questions about a place that you would like to know more about. Then work in pairs and look up the answers.

Who was the Eiffel Tower designed by?

When was it first opened?

eighty-four

Writing lab

WRITING A FACT FILE

I will write a fact file.

- 1 Read the questions. Then find the answers in the fact file.
 - 1 Why were sphinxes built?
 - 3 When was it built?
 - 5 How was it different in the past?
- 2 How big is the Great Sphinx?
- 4 How was it damaged by weather?

THE GREAT SPHINS

- Sphinxes were built to guard the entrance to an important place, for example, a pyramid or burial place.
- The most famous sphinx is the Great Sphinx of Giza. It is one of the largest and oldest statues in the world. It is 73 m long and 20 m high. It has the body of a lion and the head of Pharaoh Khafre.

- The Great Sphinx has been badly damaged by weather over the past 4,500 years. The wind has removed its beard, nose, and paint. Archeologists think that the face and body were painted red, the beard was blue, and a lot of the head covering was yellow. No one is sure exactly what color the nose was.
- In the fact file underline at least one example of:
- a description
- facts about how, when, why, and who
- important dates and what happened
- surprising facts.
 - Include a title.
 - Use only facts, not opinions.
 - Use the past passive where necessary.
 - Include key dates.

- Plan a fact file about a famous place. Include information about each of the points in 2.
- Write your fact file. Include a picture of the place.
- Display your fact files around the classroom. What interesting new facts did you learn?

eighty-five

Make an audio tour quide about the past

Step 2

Research

Decide how you are going to learn about the past.

Work in pairs. Give examples of ways you can learn about the past in your local area.

Ways to learn about the past in our local area:

- You can visit the National Museum.
- You can do research in the local library.
- You can listen to a tour guide at

Step 2

Plan

Find out about the history of an interesting place to visit.

- Write a list of questions to ask about the place you have chosen.
- Find the answers to the questions.
- Check the facts! Compare different sources.
 - Collect photos of the place or of key events in its history.
- Plan the order of information in your audio guide.

Perge, Turkey

What?

An ancient Greek site with an amphitheater for 14,000 people.

What's it made of?

stone

Just outside Antalya, Turkey

Where? When?

It dates back to 1300 RCE

Who?

Alexander the Great

eighty-six

Step 3

Create

Write your script and record your audio quide.

Write the script.

What are you going to say in your introduction? Think of a way to make your listeners want to find out more.

Include all the facts, using your Wh- questions.

Decide who is going to read different sections of the audio quide.

Are you going to use music or sound effects?

Record your audio quide.

Meryam Welcome to the ancient city of Perge! This city was built by the Greeks in 1300 BCE. The building you can see Berat

in front of you used to be a school. Now, let's go and look at the old amphitheater.

Find out about a historical place in your city. Visit with your family.

Step 4

Show and tell

Present your audio guide.

Play your audio quide to the class as they look at the photo(s) of the place you are describing.

Discuss the audio guides. Which were most interesting or useful for tourists? Why?

Now I can ...

... use words to talk about the ancient Egyptians.

... use the Past Passive to say how something was made.

... ask questions using the Past Passive.

... write a fact file.
