

# Be a *Better Learner!*

## Reflect

I can....

I enjoyed...

I learnt...

I'm good at...

I need  
more practice at...

I don't understand...

## Collaborate

Listen carefully during group discussions

Share your ideas

Ask deeper questions  
(How...? Why...? What if...?)

Be a team player

Help your partner

## Find solutions

Ask your partner / a friend / your teacher

Think of something that has helped you before

Look in your notebook for a similar task

Move on and come back to it later

Apply learning strategies to different situations

## Ask yourself questions

What's my goal?

Where can I find help?

How can I improve?

Am I trying my best?

What could I do differently?

## Be independent

Notice how your classmates do things

Use success criteria

Learn from your mistakes

Know your strengths

Keep a learning diary
