# LESSON X

## Teacher's notes

### Pearson and BBC Live Classes Facebook community

Join *Live Classes* project group on Facebook and encourage your students to do the same.

The *Live Classes* project does not end after the lesson, it actually begins here! **Join our closed Facebook group** to give yourself and your students a great opportunity to interact in the global community with your friends from other parts of the world. **The group is available to Live Classes participants only.** It is moderated by our well-experienced team to make sure it generates plenty of opportunities to use the English language outside the class, following the group rules and conditions. **To join the group, search for 'Pearson and BBC Live Classes' on Facebook.**

### General teacher guidelines

#### Classroom setting

Arrange your class in such a way your students all sit in front of the screen, either together as a group or at their desks. Make sure they will be able to stand/sit down, when needed, work in pairs or come closer to the microphone.

You can also ask one of your "tech-students" to support you as there will be times when he needs to click something.

#### Microphone

We want to hear what your students have to say and the other students around the world do too! Therefore, there are times in the lesson where students can share their thoughts using the microphone (laptops have one built-in, for a desktop you may need to get an external one), either as a whole class (saying hello, goodbye, shouting a one-word answer) or individually (giving a longer answer, sharing their thoughts).

**The trainer will have schools' microphones** muted but will unmute them at different times in the lesson one at a time (see lesson plan) - please encourage your students to take part and have individual students ready to share their thoughts using the microphone.

#### Monitoring understanding

The trainer will grade his language and explain instructions carefully, but he can't monitor the understanding of all pupils - therefore, feel free to clarify / explain / use students' L1 whenever you feel necessary.

#### Breakout rooms

During the lesson you will be groups with a different group(s) to discuss the task together. Once you get to the room you need to:

- you may need to unmute the microphone (click an icon in the bottom left corner)
- support your students in discussing the task
- monitor the activity, taking turns
- clarify/repeat what the other school said if it is unclear for your students

#### BIG LIVE LESSONS

*BIG Live Lessons* are based on the above lesson structure. Some activities have been amended to fit the lesson format.

##### Teachers are asked to:

- share **Student worksheet** in a digital format with the students before the lesson
- attend a *BIG Live Lesson* with their students to follow up on the lesson and monitor students' performance

##### Students are asked to

- have their worksheets ready – printed out or available in a digital format
- have a piece of paper, a pen and a pencil
