Task 4C

Write down all the words and phrases you hear that are related to technology.

Task 5C

Using what you have learned in this lesson as well as your own ideas, answer the question:

'Do smartphones make you smarter?'

Use reasons and examples to back up your answer. Write it below and be ready to share it with the other schools!

LESSON G

Student worksheet

Do smartphones make you smarter?

Class report

Prepare a **video report on technology use in your class** and upload it to the Live Classes Facebook group. Then watch videos uploaded by other schools: how are they similar to your school? How are they different? Include the following information in your report:

1. The name of your school and class
2. The percentage of your class that owns a smartphone
3. The most popular brand of smartphone in your class
4. If you are allowed to use phones in school and why (not)
5. The most popular social network in your class
6. If you think smartphones make you smarter and why
7. Anything else you'd like to add

Guidelines:

- You will need to find out the above information by asking questions to your classmates and to your teacher (question 4).
- The more students in the video, the better. Let's get everyone involved!
- Speak clearly and smile! You are going to teach students from all over the world about your school.
