

Sounds Good

Podcast 22

Clare, Je Yeon and Michelle talk about interesting gadgets that they like and use. What does Clare use her laptop for? What type of music does Je Yeon like? What does Michelle never leave home without?

The first general-purpose computer was built between 1943 and 1945. It weighed about 30 tons and took up 167 sq. meters of space.

Who says what? Listen and put a C for Clare, a J for Je Yeon and an M for Michelle in the correct space.

- 1 I can do my homework on it. _____
- 2 It calms me down. _____
- 3 I have software which I can use to do art. _____
- 4 It's hot pink and it's really thin and very light. _____
- 5 My sister gave it to me as a birthday present. _____
- 6 There's a camera so I can take pictures of my friends. _____

The first cell phone call was made on April 3, 1973 by the General Manager of Motorola.

Fun Fact

The Swiss Army knife is a very handy gadget. The original name was *Offiziermesser* or "soldiers knife". The term "Swiss Army knife" was used by American soldiers after World War II because the original name was difficult to pronounce.

What do you think?

Have cell phones made people more or less organized? Why?
