

Sounds Good

Podcast 39

Eoin talks to Todd about studying abroad in the UK. Eoin suggests three areas and recommends them for different reasons. Where does Eoin suggest people go if they like big cities? How many official languages are there in Wales? What does Todd say is sad at the beginning of the Podcast?

Many students say that studying abroad changes their lives by opening their eyes to the world.

Decide which of the areas that Eoin mentions the following three students would enjoy studying in the most.

A London

B Bangor

C Cornwall

- 1** ____ I've always lived in a big city and I'm used to the lifestyle, so I'd rather have a change of scenery. I love being close to nature—especially the beach! I've also always wanted to learn to water ski. It would be cool to do that while studying abroad.

- 2** ____ My parents have worked really hard so that I can study abroad and I really appreciate it. I won't spend my money on going out to restaurants and clubs. I'll go hiking and explore the beautiful countryside in my free time. That won't cost a thing!

Which of the areas that Eoin talks about would you choose to study in? Why?

Fun Fact

Oxford University is the oldest university in the UK.

- 3** ____ I can't wait to get to the UK to study. I'm going to watch as many plays as I can and I've heard you can even watch concerts in the parks. I'm an art student so I'll spend a lot of time in art galleries, too. I'm going to have to get a job to afford it all but it'll be worth it!
