

Name four places you love to be in and why.

Why is the boy outside in the rain? What else can you do in the rain?

Is what the boy does safe? What could happen to him?

Have you ever tried to catch a fish or any other animal? Were you successful?

What kind of outdoor activities can people do near where you live?

What animals can you remember seeing in the last week or so?

Who's the best storyteller in your family?

What else can you do on or near a lake?

Which places in your hometown would you show a friend but not a tourist?

How important is it to learn how to catch or grow your own food?

How does the weather make you feel?
