

What can you expect from an International GCSE Teaching Hubs subscription?

► Teaching resources

1000+ Front-of-class resources to help you deliver effective and engaging lessons linked directly from the lesson plans - including slideshows, videos, animations and interactive questions and worksheets!

1000+ Downloadable worksheets and homework tasks to save you time searching for relevant content

Digital, annotatable version of each Student Book available in the integrated eReader

► Planning materials

A comprehensive scheme of work for each subject that breaks the Pearson Edexcel International GCSE specification into hour-long sessions

120+ Lesson plans for every subject covering all guided teaching hours and featuring **scripted instructions** for communicating new learning and time allocations to allow you to be flexible

► Assessment support

Practice exam papers, mark schemes and examiners' reports, including a paper set specially designed for use with the Teaching Hub course

Consolidation lessons offer in-course revision opportunities and teach students effective exam-preparation strategies, while **revision lessons** in the weeks before the exams recap tricky topics and demystify past exam questions

Discover more with the interactive course guide >>

What lesson resources are available per subject?

Sign up for your **FREE 60-day trial** today
