# Our outstanding qualifications support

# Our innovation in next generation assessment: Onscreen assessment

## 01

### The natural choice for students

We are proud to lead the way in onscreen assessment as the first awarding body to offer onscreen International GCSE exams alongside traditional paper-based exams.

## 02

### From pilot to reality

What started as a pilot in 2020, became a reality in 2022 when students sat their Pearson Edexcel International GCSE English Language exams onscreen for the first time.

## 03

### And now growing rapidly

In 2023, entry numbers have doubled for onscreen exams as thousands of students around the world choose to take their International GCSE exams onscreen not on paper.

# Our innovation in next generation assessment: Modular qualifications

## 01

### Leading the way with choice

We are the only awarding body to offer a modular route for International GCSEs as an alternative to the linear assessment route. Our modular International A levels are already taken by students worldwide.

## 02

### Meeting students' needs

A modular route offers a sensible and authentic form of assessment that reflects how today's students sit other high stakes assessments in their lives, e.g., language proficiency or driving tests.

## 03

### And supporting student success

Whichever route you choose, the exams take the same amount of time, teachers spend the same amount of time teaching, and everyone has the best chance of success at international GCSE.

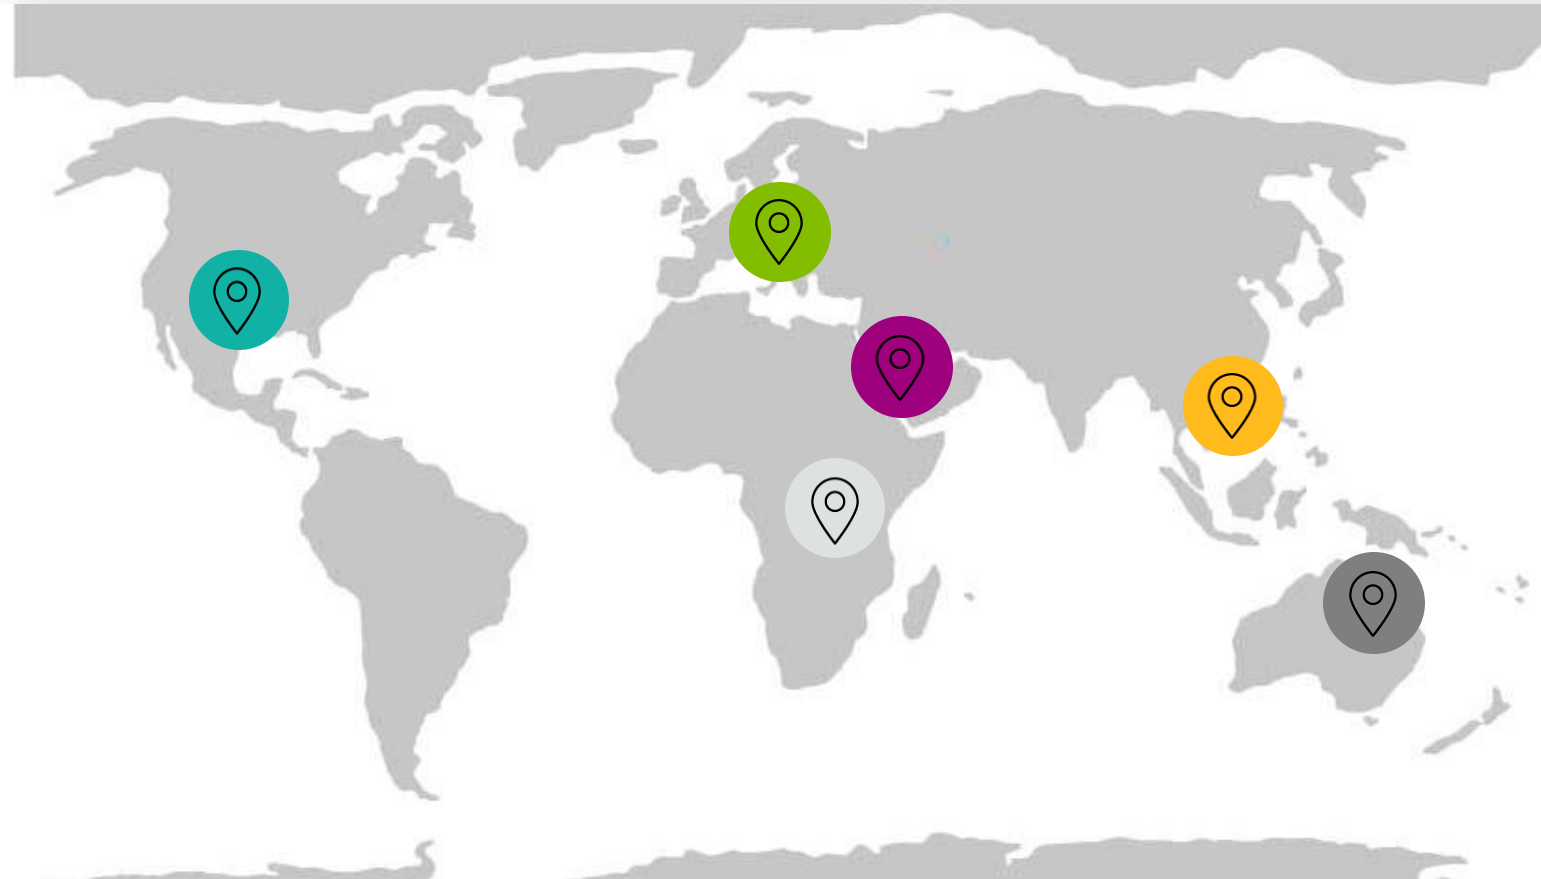

# Our local consultants listen and support

We have local consultant in most countries in which we operate

They know your country, your schools and your market

They're always on hand to support you

**Americas**

**Europe**

**Africa**

**MENAT**

**Asia**

**Aus + NZ**

They take time to understand your school vision so they can help you achieve your goals

They're our biggest asset and the reason many schools give for switching to Pearson from another awarding body
