Why choose Pearson Edexcel now?

The education landscape is changing fast.

The rapid pivot to online teaching and learning brought about by 2020’s global pandemic has imposed new demands on teachers, learners and education systems.

To ensure your school and learners are best placed to face the challenges to come, you need a qualifications partner you can trust. Only Pearson Edexcel can provide that trust.

Let us explain why.
Why Choose Pearson Edexcel now?

We may not have a university name, but our international heritage stretches back over 150 years.

We are committed to using our expertise to help equip learners with the skills they need to enhance their employability prospects and to succeed in the changing world of work.

Thousands of schools across the globe partner with us to achieve their education vision.

This is why:

1. We lead the way in digital teaching, learning and assessment
   
   We are the only awarding organisation with wider expertise to draw upon in onscreen assessment as a simple, intuitive way to sit exams digitally*. And we’re investing in new forms of digital teaching and learning to provide a complete, integrated education experience wherever learning takes place.

   We can help you and your learners adapt and thrive in a post-pandemic world.

   Read how on page 6 >

   * Read about our Pearson OnVUE technology on page 7.

2. Our globally recognised modular qualifications protect learners in times of uncertainty

   Now, more than ever, learners need control over their education journey – and parents need assurance that their child’s progression onto university or employment is secure.

   In an uncertain world, our modular International A levels can provide certainty.

   Read how on page 8 >

3. We are more than an awarding organisation

   We are the world’s learning company. When you partner with Pearson, you have access to our global expertise in education – virtual schooling, career based BTEC qualifications, English language resources and testing, learner research and professional development.

   We can help you achieve more, more affordably and with better outcomes.

COVID-19 has led educationalists across all stages and phases of learning to rethink how to reach, teach and assess learners.

As the world’s learning company and the UK’s largest awarding organisation, we are working hard to ensure that our teaching and learning resources and assessments continue to deliver the hope and opportunity learners need, now more than ever.

We listen, and we support
When the pandemic closed schools, we listened to school leaders and supported our customers with six months free access to the resources they needed to keep the learning going.

We can support your move towards online schooling
Our online schooling expertise is not new. Through Pearson, we have been delivering high quality online learning education since 2002.

Over 25,000 educators accessed our free primary and secondary digital resources in their pivot to online teaching; almost 500,000 parents registered for free primary maths videos from The Maths Factor and we delivered online live lessons in GCSE Maths, Science and English to thousands of students worldwide via our Pearson Edexcel YouTube channel.

Whatever the future holds, we will partner with you to keep the learning going.

We operate 40+ virtual schools in the US and Pearson Online Academy, our global virtual private school, serves students from more than 55 countries.

Whether you are a new or existing school, a physical or online school, we have a partner programme to help you deliver high-quality, online education to your learners in new ways.

However your classrooms evolve, we will partner with you to help you adapt and thrive in a post-pandemic world.
We are experts in online assessment

We understand the vital importance of effective assessment and are using Pearson-wide expertise to determine how it should evolve in the future.

Each year millions of people around the world take an exam with Pearson VUE. Computer programmers, nurses, teachers, real estate agents and workers in many other industries all test with Pearson VUE as the global leader in computer-based testing.

And through Pearson’s partnership with the Ministry of Education in Egypt, we delivered over 14 million online assessments to 1.6 million of the country’s students in 2020.

We can partner with you to ensure your students are assessed safely, securely and fairly.
Our globally recognised modular qualifications protect learners in times of uncertainty

Now, more than ever, learners need control over their education journey – and parents need reassurance that their child’s progression on to university or employment is secure.

Our modular International A levels give learners flexibility

Unlike other awarding organisations, Pearson Edexcel International AS/A levels are modular in structure, giving students vital flexibility over when and how they are assessed and the ability to bank grades as they progress.

Exams for our modular qualifications are taken at the end of each unit, at points throughout the course when the student feels ready, or all together at the end of the course. This, together with multiple assessment windows and re-sit opportunities via exam series in January, June and October for most subjects – and the opportunity to bank unit grades to count towards the overall qualification grade, give students far greater opportunity to obtain the results they need to progress.

Global in outlook, with content relevant for international learners and built-in opportunities for 21st century skills development, our International A levels remain entirely comparable to GCE AS/A levels, as confirmed by NARIC* and maintain equivalent rigour to linear qualifications.

In an uncertain world, modular International A levels can provide certainty.

*The national agency responsible for providing information and expert opinion on qualifications and skills worldwide.

Prefer linear GCE A levels? No problem. We offer those too.

Worrying about university recognition? Don’t.

Over 500 universities accept our international qualifications on an equivalent basis to GCE A level, including Oxford, Cambridge, Yale, Columbia, Cornell, MIT, University of Toronto and more.

www.pearson.com/international-schools
Cambridge Colleges welcome applications from those taking International A Levels (offered by Cambridge International, Oxford AQA or Pearson Edexcel) and these are recognised as equivalent to UK Board AS and A Levels.

The University of Cambridge

Worried about Brexit? Don’t. Our International A levels enjoy excellent recognition with Europe’s leading universities.

See our ever-expanding list >

Of course, we don’t just offer International A levels. Through iPrgress, a whole-school curriculum suite for international learners based on the 2014 English National Curriculum, we deliver a consistent learning journey for learners aged 3 to 19 with world recognised Pearson Edexcel iPrimary, iLower Secondary and International GCSEs too.

Our project-based, career-focused BTECs give learners choice

In order to equip all your students for success, we offer pathways which recognise the increasing value in the 21st century workplace of a wide range of vocational and professional qualifications.

BTECs, our popular, flexible, project-based and career-focused qualifications developed in partnership with employers, can be studied alongside academic qualifications in a broad and balanced curriculum. They give learners of all levels and ages the employability skills they need, whether they progress on to higher education or straight into work.

Read more about Pearson BTEC at quals.pearson.com/BTEC >

Worrying about university recognition? Don’t. 23% of students who went to university in the UK in 2018 had a BTEC and 90% of BTEC students enter full-time employment after graduating.

How learners progress with Pearson Edexcel

Where can our international curricula and qualifications take your learners? Here are just some of the inspirational stories from learners around the world who have all achieved success on their Pearson Edexcel journey.

Denise’s iLower Secondary story

Denise began her education journey aged three, attending a German-speaking institute for the first eight years of her schooling. When she joined Potterhouse School, an international British school in Kenya, at age 11 she found the transition challenging – not only was she joining a new school, she also had to switch from German to conversing and studying in English. Fortunately, her teachers at Potterhouse supported her, helping her prepare for her Year 6 assessments.

Denise excelled in these first exams, carrying a valuable work ethic and determination with her as she progressed through the school into the Pearson Edexcel iLower Secondary curriculum and on to Pearson Edexcel International GCSEs.

Now, aged 16 and fully integrated into school life, Denise won a Pearson Edexcel Student Values Award in 2020 for showing courage, innovation and honesty in school. She is excited for the future and proud of her achievements at Potterhouse School.

Read Denise’s story at pearsoninternational-schools.com/iProgressed >

“Pearson Edexcel and Potterhouse have not only given Denise classroom knowledge, they have also allowed her to explore her interests.”

Denise’s mother, Kenya

Erin’s International GCSE story

Erin is 16 and studying International A levels at Alice Smith School in Kuala Lumpur. She completed her International GCSEs in 2019, receiving two Pearson Outstanding Learner Awards for the highest mark in the world for history and the highest mark in Malaysia for PE.

Erin chose French, history, PE and business studies as her International GCSE options and enjoyed their diversity and breadth. “It allowed me to approach problems from different perspectives. The questions I had after each lesson made me genuinely curious about my subjects and fueled my love for learning.”

Studying Pearson Edexcel International GCSEs gave Erin wide knowledge in multiple subject areas. “Now I’m studying A level economics, if I get a question on tariffs; I can think back to how the Smoot-Hawley tariff affected post Great Depression America. I am able to do this because I studied history for my International GCSEs.”

Read Erin’s story at pearsoninternational-schools.com/iProgressed >

“I want to change society for the better, whether that be on a small or large scale.”

Erin, Alice Smith School, Kuala Lumpur
Malenka’s International A level story

Malenka is 16 and studying at Academia International School in Zurich. She started her education journey at a Montessori school and changed schools several times before eventually joining Academia aged 15. She is now enrolled in the school’s private tutoring programme which allows her to study International A levels in maths, biology and history alongside International GCSEs in English, maths and economics.

She enjoys the independence that A level studies afford her, viewing it as good preparation for university and her eventual career.

Because her International GCSEs and International A levels are globally recognised, Malenka is confident she could go to university in any country but is currently keen on staying in Zurich. “I love the city although with Pearson International A levels I can literally do anything. You can study in hundreds of countries and it always counts – I mean, I will have British A levels!”

We are more than an awarding organisation

We are the world’s learning company. When you partner with Pearson, you have access to our global expertise in education.

Our purpose is to help people make progress in their lives through learning because we believe that quality education is the key to shaping a better tomorrow. It can create better lives for individuals, greater equality within society, and a more prosperous, sustainable world.

We use efficacy and research to deliver better outcomes for learners
We were the first company to put efficacy at the heart of everything we do, and we use research and evidence to deliver measurable progress at each stage of learning.

Using outcome-based product design, we identify what matters most to educators and learners and we continuously measure the impact of our qualifications and products and find new ways to keep improving them, to bring learners closer to achieving their goals.

Together, we can help your students learn in more accessible ways, more affordably and with better outcomes.

We have an unparalleled breadth of expertise, so we can help you achieve more
With more than 22,500 employees operating in 70 countries, we can partner with you to support your school’s education vision.

Working together, we can help you deliver the best outcomes for your students with our international curricula, world-class Pearson Edexcel qualifications and career-based BTECs.

But with the full scale of Pearson at your disposal, we can also help you create competitive advantage for your school with our virtual schooling services, professional development and English language assessments and resources.
