Our **maternal** and **paternal ancestors** come from Italy. **Our extended family** still lives in Rome.

We are a **close-knit family**; we often travel to see each other.

My mum is **the spitting image** of her sister. They look nearly identical, even though they're not **twins**.

Curly hair **runs in our family**; I'm the only person with straight hair.

My kid brother **takes after** our granddad. They both love nature and fishing.

I share many hobbies with my mum. Apparently, **the apple doesn't fall far from the tree**.

I might **follow in her footsteps** and become a nurse.
