Global Scale of English

Fast-track your
learners' progress

The Global Scale of English (GSE) is the beating heart of the Pearson Connected English Learning Programs. Designed to build confidence, the GSE helps you understand where learners are on their unique learning journey with unparalleled clarity.

The GSE is the result of extensive expert research. It extends the Common European Framework of Reference (CEFR) to assess different types of learner on a simple 10–90 scale.

With the GSE, pre-primary, primary, secondary and adult learners can pinpoint their proficiency in all of the four key language skills: speaking, listening, reading and writing. Teachers can then set personalised goals for every learner, guiding their next steps and accurately measuring their progress along the way.

It's the first of its kind. A truly global standard in English language learning.

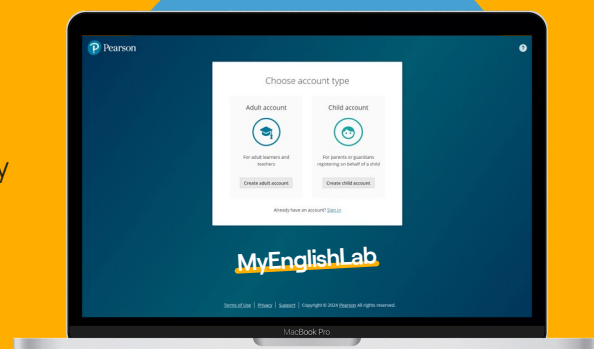

Find out more about the GSE, get helpful resources and access the free teacher toolkit at [pearsonenglish.com/gse](https://www.pearsonenglish.com/gse).
