# Global Scale of English

## Fast-track your learners' progress

The Global Scale of English is a must-have resource to fast-track learners' progress. It's been designed to build learners' confidence by understanding exactly where they are on their learning journey and setting personalised goals to help them progress.

It's the result of extensive expert research, extending the Common European Framework of Reference (CEFR) and taking it further by assessing what learners are capable of on a scale of 10 to 90 for each of the four key language skills: speaking, listening, reading and writing.

## Mapping Connected English Learning solutions

This document offers you **guidance on easy matching of resources** as part of Connected English Learning Program – **courseware, assessment and certification**.

We showcase our most popular courses for each learner category, along with the most relevant recommended assessment tools for building learners' confidence and celebrating their achievements.

Connected English Learning Program is designed to help you deliver an effective and engaging learning experience, fast track fluency, and empower your learners to be themselves in English.

It's the first of its kind. A truly global standard in English language learning.
