Current Capabilities in Detail

Speaking: **GSE: 63/90**  
**CEFR: B2**

The candidate can generally communicate with accuracy on most topics and in most contexts. They may make errors when talking about very unfamiliar topics but these do not prevent understanding. They can contribute to a group conversation fluently and naturally, provided the topic is not too complex. They can perform a range of work-related tasks such as discussing creative ideas for work-related projects, participating effectively in meetings, describing a product or service concisely, and giving clear instructions about solving job-related problems. They can give a clear, detailed spoken description of how to carry out a procedure.

**Tips to improve:**
- Practice talking about an idea if the exact language is not known.
- Practice summarizing ideas by paraphrasing (repeating something using different words).
- Work on building vocabulary for effective participation in a discussion (e.g. phrases to gain time while thinking what to say), introducing a new topic/information, and developing a clear argument with supporting points and relevant examples.
