What's the connection between bungee jumping, the world's best rugby team and the first man to climb Mount Everest?
The answer is: they're all from New Zealand!

New Zealand is an island country in the South Pacific Ocean. The Maori people first arrived there nearly 800 years ago. They travelled across the ocean from Polynesia in small canoes! Then, in 1840, the first British people arrived.

New Zealanders have always been strong and adventurous. It's not surprising that Sir Edmund Hillary, the first man to climb Mount Everest, in 1953, came from New Zealand!

Today New Zealand is still a great place for adventure. In fact, it's the number one extreme sports destination in the world! People visit it to go climbing, snowboarding, skydiving and more.

Have you ever wanted to try bungee jumping? Did you know that a New Zealander, A.J. Hackett, made it popular? In 1987, he bungee jumped from the Eiffel Tower in Paris! Then, in 1988, he opened the world's first bungee jump for tourists at Kawarau Bridge in New Zealand. Over 35,000 people go there every year.

New Zealand is famous for less extreme sports too. It has top athletes in rowing and sailing, and a world champion rugby team called the All Blacks. The team perform a New Zealand 'haka' (a Maori war dance) before every match they play. Perhaps that's why they've won the World Cup three times!

Hi, Milly!

Would you like to go to the cinema this weekend? I'm busy on Saturday, so how about Sunday? I'd like to see *Two Lions* because I've already seen *The Secret Alien* and *Animal Island*. Is that OK?

It's on at 2.15 and 4.15. I'm meeting my cousins for lunch, so the later time is better. Wait for me outside the cinema – there are always a lot of people inside. We're both thirteen, so we can get cheap tickets!
