Read the story.

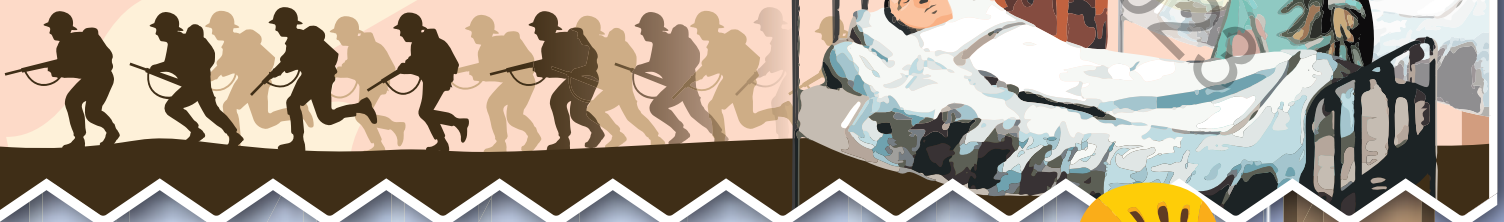

Jason had to do a presentation on an important job. Miss Li assigned him the job of nursing. She gave him a biography of a famous nurse.

## Florence Nightingale – a biography

5 Florence Nightingale was born in England in 1820. Her family was rich but she didn't dream of going to fancy parties like other girls. She dreamt of helping others instead. In 1851, she went to Germany to study nursing.

In 1854, many British soldiers got hurt in a war.  
10 Florence went to help. At night, she walked around with a lamp checking on the soldiers. They called her 'The Lady with the Lamp'.

'Boring!' Jason said out loud. 'I'd rather talk about a video game designer!' he thought.  
15 He grabbed his skateboard. He needed a break from his homework.
