Revel is a digital platform which provides a seamless multimedia learning experience, designed to engage and motivate students.

Revel supports the development of student understanding and skills regarding the application of business concepts by combining leading textbook content with online exercises that engage students and promote active learning.

Assign learning activities and keep track of student progress via the Performance Dashboard. You will also be able to quickly and easily identify the students who have not completed tasks or might be struggling.

“If (other universities) ask me whether it’s worth them paying for it, I would say yes ... it fulfils quite a few challenges for us and the students felt they were getting extra from their first semester ... If they ask me whether it’s worth them paying for it, I’d say yes.”

Academic lead / Associate Head of Department
Encourage active reading

Interactive exercises

Exercises like drag and drop, fill-in-the-blanks and matching are seamlessly woven throughout the text so students can check their understanding as they go.

End of chapter quizzes

After reading a chapter, students can take a short quiz to test their knowledge. Their scores and answers will appear in the Performance Dashboard.

Videos

Relevant videos are integrated throughout the learning material to engage students. They also include full transcripts, making them flexible and more accessible for everyone.
Help students apply theory

Surveys

Students can reflect on their own philosophical viewpoint in relation to conducting research through a series of statements, and receive a final score that aligns them to one or more beliefs.

Flashcards

Now it is easy for your students to revise key concepts with ready-made sets of flashcards available for each chapter.
Revel helps lecturers and students

In 2018, The School of Management at Swansea University used two Revel titles across strategic management and marketing modules in two semesters. The results showed:

- 6.3% higher average mark for students who used Revel.
- 11.8% higher mark for students who also used the revision session created in Revel by their lecturer.
- 88% of students were likely to recommend Revel.
