Revel is a digital platform which provides a seamless multimedia learning experience, designed to motivate students and promote active learning. By combining leading textbook content with online exercises, Revel supports the development of student understanding and skills regarding the application of economic concepts.

Assign learning activities and keep track of student progress via the Performance Dashboard. You will also be able to quickly and easily identify the students who have not completed tasks or might be struggling.
Encourage active reading

Interactive exercises
Exercises like drag and drop, fill-in-the-blanks and matching are seamlessly woven throughout the text so students can check their understanding as they go.

End of chapter quizzes
After reading a chapter, students take a short quiz to test their knowledge. Their scores and answers will appear in the Performance Dashboard.

Videos
Relevant videos are integrated throughout the learning material to engage students. They also include full transcripts, making them flexible and more accessible for everyone.
Help students apply theory

Concept checks
Concept checks prompt students to draw and interpret graphs or fill in tables, helping them visualise and appreciate complex economic ideas.

Interactive animations
By navigating through interactive animations, it is easier for students to get a grasp of complicated concepts.
Get started with Revel

Our team can help you discover all that Revel has to offer you and your students. When you choose to use Revel, Pearson’s Expert Support team will help you get started and provide advice as you use the platform throughout your course.
