

A broad and balanced curriculum

Accessible

Give everyone the knowledge and skills to succeed in life:

- Differentiated routes and materials for a range of abilities.
- Curriculum based on efficacy, using proven pedagogy recommended by experienced teachers.

Measurable

Regularly check students' standing and adapt teaching appropriately:

- Tools to identify class or student intervention requirements.
- Baseline assessments at entry points to tailor the curriculum to the cohort's needs.

Flexible

Create your own curriculum around the needs of your students:

- Planning tools help you easily build your own scheme-of-work.
- Tiering in a way that enables co-teaching of different abilities.

Relevant and engaging

Engage students with relevant content:

- Content is based on real-life scenarios.
- Drawing on real-world context to be relevant and applicable to their own experiences.

Prepares for life

Develop essential skills and a breadth of knowledge:

- Teaches skills and knowledge needed for life: literacy, numeracy, analysis, critical thinking and more.
- Essential literacy and numeracy skills taught across subjects.
- Careful sequencing of content to help retention of knowledge and skills long-term.

Promotes wellbeing

Instill confidence with an inclusive and accessible curriculum:

- Mental health and wellbeing diagnostic tools.
- Flexible courses adapt to each students' needs.
- Tools and resources to reduce admin burden on teachers.
