

# Key Stage 3

## Inspire, develop and prepare...

### Igniting

a passion for each subject with stimulating and relevant content.

### Relevant

content applicable to the real-world and student's own experiences.

### Inspiring

the next generation of scientists/historians/mathematicians/linguists.

### Sequencing

of content to help build confidence and the retention of knowledge and skills long-term.

### Accessible

courses with differentiated routes and materials for a range of abilities.

### Flexibility

to build your own curriculum around the needs of your students.

### Building

a strong skills and rich knowledge base for progression to KS4.

### Evidence

based pedagogy recommended by experienced teachers.

### Linking

subjects in relevant contexts to help build knowledge and skills.

### Formative

assessment opportunities throughout KS3 to regularly check students' understanding and ensure students embed key concepts.
