

What are the benefits of online tutoring?

Why try online tutoring?

Bramble, the UK's leading online tutoring platform spoke to over 2,200 teachers, tutors, and students in July 2022 to get their thoughts on online tutoring. The results are in – online tutoring is effective and here to stay!

With a shift toward digital teaching and learning during the pandemic, many questioned the viability of this method of reaching students. Following this year's survey, 97% of tutors plan on continuing with online tutoring with 51% tutoring exclusively online. The survey also showed that 84% of tutors and 87% of students find one-to-one and small group online tutoring just as effective or even more effective than in-person sessions.

So, what are the benefits of online tutoring?

Bramble has been running surveys for the past three years and the following online tutoring benefits have been consistently highlighted in the 2020, 2021 and 2022 surveys:

Students are more relaxed and focused.

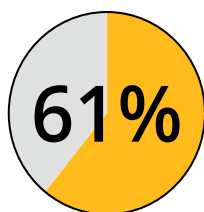

Searchable lesson recordings, which can be used to support revision but also keep tutors and students safe.

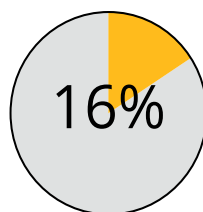

The potential to cover more content in online lessons than they did in person.

Why choose Bramble and Pearson?

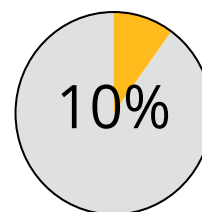

Of all those questioned in 2021, **61%** found Bramble to be the most effective online platform, followed by Zoom at **16%** and Microsoft Teams at **10%**.

What's next?

As the survey results show, online tutoring has become an important teaching and tutoring tool for the past three years and continues to trend even after the full-on effects of the pandemic and its resulting lockdowns.

As a National Tutoring Programme provider, Pearson Tutoring will continue to work with Bramble to develop your students tutoring experience and provide you with support to make this process easier. Recent developments that we have put into place include:

- The ability to quickly book blocks of tutoring in bulk
- Dashboards showing attendance, engagement, assessment and topic information at a glance.
