

# BRIGHTER | **Futures**

## **GOODY BAG**

At Pearson we're proud to be working with leading organisations and experts on a shared mission to support schools to become more sustainable and to empower the future generation to lead change.

Inside this virtual goody bag, we're providing useful information, tools and resources to support students, teachers and schools to take climate action that's both meaningful and manageable.

**Together we can make a difference.**

## Climate Explorers ➔

### ITV Weather

This series of bitesize video clips will support your students to develop their understanding of climate change and the effect it's having on the world around us.

## 2022 - 2023 Global Learning Wall Planner ➔

### Reboot the Future

Inspire your students with discussion questions, facts and challenges linked to global events and festivals throughout the year with this interactive wall planner.

## Curriculum for a Changing Climate: a track changes review of the national curriculum in England

### Teach the Future

A practical tool that reviews the curriculum using a 'track changes' methodology, designed to show exactly where and how the national curriculum can be amended to include sustainability and respond to the climate and ecological crisis.

- ➔ Full report
- ➔ Subjects reviewed

## Let's go Zero ➔

Let's Go Zero is the national campaign uniting teachers, pupils, parents and their schools as they all work together to be zero carbon by 2030.

When you sign up to Let's Go Zero, you'll get support on setting your zero carbon targets and developing roadmaps for delivery and will help influence discussions with politicians.

## Schools Climate Action Planner ➔

### Transform Our World

This free and easy-to-use digital tool supports teachers, students and staff to identify actions they can take to reduce their school's environmental impact. After answering some yes or no questions, the tool will show you the personalised actions that would have the greatest impact at your school by pointing to resources, initiatives and programmes from various organisations.

## Teaching resources ➔

### The Harmony Project

From planning overviews and lesson plans, to resources for curriculum development, you'll find all the resources you need to develop a Harmony approach to teaching and learning.

## Level 3 Extended Project Qualification ➔

### Pearson Edexcel

Did you know your students can focus their EPQ research on sustainability and climate change?

Selecting this vital area as a research focus will allow your students to explore and research the future of our planet. This is a great opportunity to develop the skills, knowledge and mindset needed to create positive and lasting environmental impact.

## Top tips for planning a greener fieldtrip ➔

### Pearson Edexcel

Eco-Schools Manager at Keep Britain Tidy, Lee Wray-Davies shares some useful tips for planning a greener fieldtrip.

## Embedding sustainability – A support guide for BTEC Nationals ➔

### Pearson BTEC

This guide provides a framework for sustainable education along with hints and tips of how you can seamlessly implement this in your teaching practice without any significant impact on preparation and delivery time. There are exercises and activities for you to undertake with students, case studies to explore and examples of where sustainability can be embedded into lessons, helping learners to understand how they can make a real impact in ensuring a sustainable future.

## Inspirational World Changers ➔

### Pearson

We are highlighting the work of some inspirational young people who are playing their part to help protect our planet and are affecting change beyond the classroom. With projects ranging from tackling plastic pollution to raising awareness of nature reserves and designated wildlife sites, these young people are determined to make a positive difference.

**These stories may help to inspire your learners!**

## Real Geographer series ➔

### Pearson

Studying geography can lead to some exciting and varied careers. Our Real Geographers series features some real-life geographers who share their love of geography and passion for their job. Find out why studying geography can lead to some exciting future careers.

## A scientific spotlight on World Earth Day

### Pearson

Our scientific spotlight on Earth Day is dedicated to its founder, John McConnell.

Within the below booklet you can explore key facts, a fun activity and discussion starters for your students.

➔ **Download the booklet**

➔ **Download the answer sheet**

## Be the Future ➔

### Pearson

In collaboration with the Peter Jones Foundation, we are delighted to be relaunching the social enterprise competition for learners in school or college.

The challenge is to create a social enterprise idea that addresses a social or environmental issue, such as poverty, climate change or inequality. We want to hear your ideas for a social enterprise that could work to resolve these issues.

# BRIGHTER | **Futures**

We hope you've found the contents of this goody bag useful.

You can keep up to date with the work Pearson are doing to support schools on their journey to becoming more sustainable by visiting our Brighter Futures webpage.
