

Trouble in Paradise!

Each animal's habitat is affected by global warming and climate change. See if you can match the animal to the troubles! (**Challenge:** See if you can come up with your own ideas to add to each list!)

Green Sea Turtle

Snowshoe Hare

Monarch Butterfly

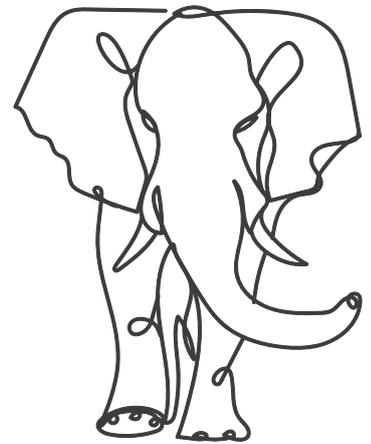

- Rely on the snow for camouflage
- Earlier season changes leaving them vulnerable
- Prefer forest habitats with lots of cover
- _____

- Dependent on environmental cues for reproduction, migration and hibernation
- Vulnerable to weather extremes
- _____

- Requires lots of water to drink
- Rely on rain to know when to reproduce
- Environmental migration patterns
- _____

- Main food source is bamboo
- Slow reproduction rate
- Already endangered
- _____

- Sensitive to temperature at all life stages
- Rising sea levels affecting nests
- Already endangered
- _____

African Elephant

Giant Panda
