“ Getting that feel of how other departments are working and how other people are thinking is really helpful.

NHS Apprentice

Business Administrator Apprenticeship Standard

At Pearson TQ we provide a fully managed end-to-end apprenticeship service, covering design, delivery, and assessment solutions.

We create high quality, contextualised workplace learning programmes giving employers and individuals access to the learning they need to unlock their potential and grow with the world around them.

Business and Administration Apprenticeships are one of the most effective ways to develop the capabilities and boost the performance of those in an administration role. Apprenticeships help to develop essential skills in existing employees as well as attract new talent, addressing the challenge of the workforce skills gap.

This Standard has been carefully designed to help apprentices develop a highly transferable set of knowledge, skills and behaviours that can be applied in all sectors. This includes small and large businesses alike, from the public sector, private sector and charitable sector.

“ I have more confidence in myself and what I am doing. Now I have started applying the knowledge and skills I have learnt in my work, and I take the lead in some of the things that I was not doing before.

Association of Apprentices

Pearson TQ has partnered with the Association of Apprentices (AoA), a national, not-for-profit membership organisation which helps apprentices to connect, learn and fulfil their potential.

Apprentices can join the community, share experiences, communicate with people in similar situations, participate in specially curated events, and get support with everything from work skills to wellbeing.

Through our partnership, apprentices are eligible for free AoA membership with access to a bespoke social and professional networking platform that allows apprentices to unite with peers in a dedicated, inclusive virtual community and have access to thousands of resources to support apprentices work and life skills development.
