

00:00:06:00 – 00:00:07:21

Hi. I'm Julie Rebert.

00:00:07:21 – 00:00:09:18

I'm the Faculty Advisor for MyLab

00:00:09:18 – 00:00:14:01

Business here at Pearson and part  
of the Faculty Advisement Services team.

00:00:14:21 – 00:00:19:08

I wanted to share with you  
some resources that we have available

00:00:19:15 – 00:00:23:01

that may help you no matter where you are  
in your semester right now.

00:00:23:07 – 00:00:25:23

Maybe you're at the end of your semester.

00:00:25:23 – 00:00:29:09

Either you've just given your finals,  
you're preparing for finals

00:00:30:02 – 00:00:34:23

or maybe your institution  
is on, for example, a quarter system.

00:00:35:04 – 00:00:40:05

So you're really kind of right at midterms  
right now. On our platform

00:00:40:05 – 00:00:42:12

training and support website,

00:00:42:21 – 00:00:46:12

We have a lot of great resources  
available.

00:00:46:12 – 00:00:51:00

And I wanted to talk today  
quickly about three on-demand webinars

00:00:51:11 – 00:00:56:02

that you might find useful no matter  
where you are again in your semester.

00:00:56:18 – 00:01:01:12

If you're at the end of your semester,

one webinar that I'd recommend

00:01:01:12 – 00:01:06:04  
is the Review Student Performance  
in MyLab webinar.

00:01:06:09 – 00:01:07:08  
In this one,

00:01:07:08 – 00:01:12:17  
you're going to get some coaching  
on how to evaluate your current course

00:01:13:04 – 00:01:18:03  
and you have the opportunity to go in  
and make those changes

00:01:18:03 – 00:01:20:04  
while they're still top of mind

00:01:20:04 – 00:01:25:05  
before you roll into next semester  
and you're realizing that there were

00:01:25:05 – 00:01:27:16  
changes that you wished you could make.

00:01:27:16 – 00:01:32:08  
And then in the Prepare for Next Term  
in MyLab webinar,

00:01:33:03 – 00:01:35:21  
that's where we'll go through  
and we'll talk about

00:01:36:03 – 00:01:38:01  
how do I copy my course,

00:01:38:01 – 00:01:41:14  
how do I actually get it set up  
for the following semester?

00:01:42:00 – 00:01:45:24  
You can take a look at these two webinars  
and really have your courses ready to go

00:01:46:04 – 00:01:49:11  
before you even leave for the summer,  
which is wonderful.

00:01:49:11 – 00:01:52:05

Then when you walk in  
for the next semester,

00:01:52:10 – 00:01:54:06

everything is right there ready to go.

00:01:54:06 – 00:01:56:20

You might have to make a few more tweaks,  
but it's not going to

00:01:56:20 – 00:01:57:24

take you a lot of time.

00:01:59:01 – 00:02:02:22

If you find yourself  
in the middle of your semester right now,

00:02:03:07 – 00:02:07:10

The Teach with MyLab webinar might be one  
that you want to take a look at

00:02:07:18 – 00:02:10:20

as that one is going to go through  
some of the options

00:02:10:20 – 00:02:13:02

that you have within the MyLab  
gradebook.

00:02:13:14 – 00:02:16:23

And it's also going to talk  
about some early intervention strategies

00:02:16:23 – 00:02:19:02

that you can use with your students.

00:02:19:02 – 00:02:22:02

While you're working  
in the middle of the semester,

00:02:22:02 – 00:02:25:17

when there's still time to maybe  
bring them up to speed

00:02:25:17 – 00:02:28:24

or get them the support that they need  
before your semester ends.

00:02:29:07 – 00:02:30:21

These three webinars,

00:02:30:21 – 00:02:32:22

and as I said, we have a wealth of others

00:02:32:22 – 00:02:36:15

that are on our platform  
training and support websites.

00:02:36:23 – 00:02:40:14

So I encourage you to take some time  
take a look at what we have,

00:02:41:01 – 00:02:45:12

and I hope you have a great ending  
to your semester. Thank you.
