

00:00:06:12 – 00:00:06:24

Howdy.

00:00:06:24 – 00:00:08:16

My name is Stephanie Tacquard.

00:00:08:16 – 00:00:11:15

and I'm currently the manager  
of the Science Faculty Advisors

00:00:11:22 – 00:00:15:02

and the former Faculty Advisor  
for Physical Sciences here at Pearson

00:00:15:18 – 00:00:18:10

I've taught  
chemistry, microbiology, anatomy

00:00:18:10 – 00:00:21:00

and physiology and biology  
for about 12 years.

00:00:21:15 – 00:00:23:01

Right now, if you're like me,

00:00:23:01 – 00:00:25:23

you're probably a week or two away  
from finishing up this semester

00:00:26:10 – 00:00:28:21

and you're reviewing the progress  
your students have made.

00:00:29:07 – 00:00:29:22

You're wrapping up

00:00:29:22 – 00:00:33:15

the term, you're getting ready for Maymester  
or even your summer courses.

00:00:34:06 – 00:00:38:04

So if this is you,  
there are a few on-demand resources over

00:00:38:04 – 00:00:42:00

on our support page that I think  
you might find really useful right now.

00:00:42:21 – 00:00:46:01

The first is a webinar called Review

## Student Performance

00:00:46:01 – 00:00:47:07  
in Mastering.

00:00:47:10 – 00:00:51:20  
This resource highlights a few key pieces  
that could be very valuable to you.

00:00:52:16 – 00:00:54:24  
It can help you evaluate  
how your students performed,

00:00:55:09 – 00:00:59:14  
how your course went overall,  
and it can even help you determine how

00:00:59:14 – 00:01:02:18  
you might make your course a little bit  
more successful in the future.

00:01:03:08 – 00:01:06:23  
The second is our Prepare for Next Term  
with Mastering webinar.

00:01:07:21 – 00:01:10:22  
It will walk you through how to quickly  
prepare for your Maymester

00:01:10:23 – 00:01:15:20  
or summer courses by simply copying  
and modifying your old existing courses.

00:01:16:05 – 00:01:19:16  
Thank you so much for your time today  
and I do hope you find these resources

00:01:19:16 – 00:01:21:22  
helpful. Have a great rest of your term.
