Anatomy, Physiology, & Disease: An Interactive Journey for Health Professionals

Edition 3

Bruce J. Colbert

Pearson

Rights sold

9780134876368

Previous edition 9780132865661

Publication date 04-01-2019

Pearson

Pages 752

RRP \$64.99

Short description

For courses in anatomy & physiology for health professions and comprehensive medical assisting. Where A&P meets pathology: A stimulating exploration Anatomy, Physiology & Disease: An Interactive Journey for Health Professionals provides an engaging introduction to interrelationships in A&P and pathology, with emphasis on clinical applications. Conversational and humorous, the text uses real-world analogies to enable true understanding, rather than memorization, and to create lasting connections. The 3e presents the latest research and clinical applications in human A&P, plus new visual aids and practice opportunities. A student workbook is available separately

Nursing: A Concept-Based Approach to Learning, Volume I Edition 3

Pearson

Rights sold

9780134616803

Previous edition

Publication date 30-05-2019

Pearson

Pages 1792

RRP \$229.99

Short description

#1 curriculum choice for concept-based schools of nursing. Nursing: A Concept-Based Approach to Learning provides all of the core content and materials needed to deliver an effective concept-based program that develops practice-ready nurses. This three-volume series is the only concepts curriculum developed from the ground up as a cohesive, comprehensive learning system. An intentional instructional design and learning pattern fosters connections between concepts and a deep level of comprehension that can be applied broadly. The 3e is a significant revision that brings the text in line with new evidence-based practice, care, and safety guidelines.

Short description

The novice nurse's guide to whole-patient care. LeMone and Burke's Medical-Surgical Nursing: Clinical Reasoning in Patient Care offers the skills and knowledge needed to provide safe, evidence-based care for the diseases and disorders the new nurse will most likely encounter. The theme is that patient care should address the whole person, not just the malfunction of body systems. Rather than memorize medical conditions, readers build the clinical reasoning skills they need to safely perform simple to complex tasks. The 7e has a new section on transitions of care & a new chapter linking sleep and health.

Discipline/Subject

Nursing

Author bio

Gerene Bauldoff, RN, PhD, FAAN, is a professor of clinical nursing at The Ohio State University College of Nursing in Columbus, Ohio.

Publication date 04-02-2019

Pearson

Pages 1024

RRP \$89.99

Short description

Medical Language: Immerse Yourself is grounded in immersive language learning. Rather than memorizing vocabulary, students experience the sights and sounds of health care as they listen, speak, write, watch, examine and think. A greater quantity and variety of exercises than any other text maximize opportunities to reinforce learning. The 5e retains its organization by medical specialty — the way medicine is practiced in the real world. New to the 5e is a reorganization into 15 chapters, perfect for a 16-week course, and into five sections correlated with learning outcomes. Each section ends with new Practice Laps evaluating student competency and underscoring learning goals.

Discipline/Subject

Nursing

Publication date 31-01-2019

Pearson

Pages 288

RRP \$39.99

Short description

For courses in paramedics. A simple five-step approach to interpreting EKGs. Understanding EKGs: A Practical Approach is a practical yet comprehensive guide to basic EKG interpretation. With short, succinct chapters, this text is for the healthcare provider who is new to cardiovascular anatomy, physiology and rhythm strip interpretation. Hundreds of review questions and review strips reinforce course material. The 5e reflects the most up-to-date standards of care, including the updated guidelines of the American Heart Association. The new edition also features 50 additional review questions, expanded graphics, and new or enhanced chapter objectives.

Discipline/Subject

Nursing

Author bio

Brenda Messer Beasley is a paramedic and a registered nurse. She earned her bachelor's and master's degrees from the University of Alabama and Lorenz University, respectively and also completed additional postgraduate studies

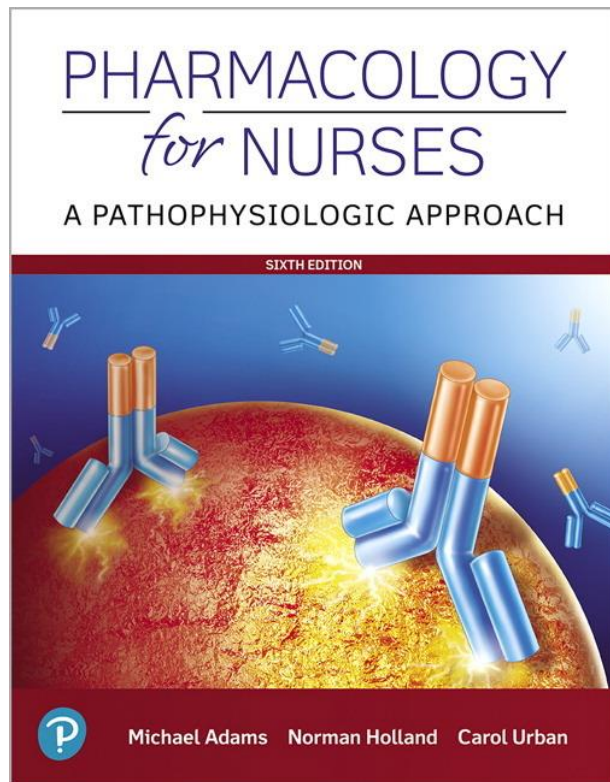

Pharmacology for Nurses: A Pathophysiologic Approach

Edition 6

Michael P. Adams

Pearson

Rights sold Greek

9780135218334

Previous edition 9780136797364

Publication date 02-04-2019

Pearson

Pages 960

RRP \$89.99

Short description

For courses in pharmacology. Pharmacology for Nurses: A Pathophysiologic Approach simplifies pharmacology by linking it tightly to therapeutic goals. Instead of learning about drugs in isolation, students approach them by body systems and diseases in order to draw connections between A&P, diseases and drug interventions. Engaging features and exercises relate pharmacology to nursing care, while discussion of alternative therapies and cultural & lifespan considerations give further context for clinical decisions. The 6e adds the most current pharmacotherapeutics and advances in pathophysiology.
