## Short description

For courses in Abnormal Psychology. Abnormal Psychology: A Scientist-Practitioner Approach portrays the human face of various psychological conditions, helping students to understand that abnormal behavior is complex and subject to many different forces. The authors, all active researchers, clinicians, and educators — bring abnormal psychology to life via a scientist-practitioner approach that integrates biological data with research from the social and behavioural sciences.

## Discipline/Subject

Psychology

## Author bio

Deborah C. Beidel received her B.A. from the Pennsylvania State University and her M.S. and Ph.D. from the University of Pittsburgh, completing her predoctoral internship and postdoctoral fellowship at Western Psychiatric Institute and Clinic.

## Short description

Revel Psychology: From Inquiry to Understanding empowers students to apply scientific thinking to the psychology of their everyday lives. The authors introduce six principles of scientific thinking that serve as a clear framework for learning about psychology. As a result of this emphasis on the scientific method, the text helps students develop the critical thinking skills and open-minded skepticism needed to distinguish psychological misinformation from psychological information.

Revel empowers students to actively participate in learning. More than a digital textbook, Revel delivers an engaging blend of author content, media, and assessment. With Revel, students read and practice in one continuous experience, anytime, anywhere, on any device.

## Discipline/Subject

Psychology

## Author bio

Scott O. Lilienfeld received his BA in psychology from Cornell University in 1982 and his PhD in clinical psychology from the University of Minnesota in 1990.

# Revel for Child Development - Access Card

Edition 9

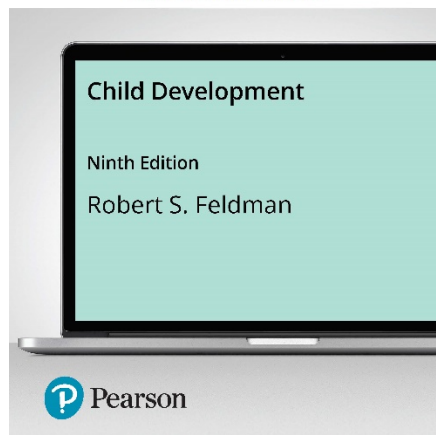

Robert S. Feldman

Pearson

This Combo Code Card gives you immediate access to your instructor's Revel course and a loose-leaf version of the text shipped directly to you.

Rights sold

**9780136967217**

Previous edition 9780134711201

Publication date 17-08-2021

Pearson

Pages

RRP \$52.49

## Short description

Revel® Child Development offers a comprehensive introduction to the field, covering basic theories and research findings as well as highlighting current applications outside the laboratory. Covering childhood and adolescence chronologically, the author seeks to excite students about the field, to draw them into its way of looking at the world, and to mold their understanding of developmental issues. In order to help students relate the subject matter to their world today, the 9e includes coverage of the coronavirus pandemic and the profound effect it has had on the world.

Revel empowers students to actively participate in learning. More than a digital textbook, Revel delivers an engaging blend of author content, media, and assessment. With Revel, students read and practice in one continuous experience, anytime, anywhere, on any device.

## Discipline/Subject

Psychology

## Author bio

**9780135685341**

Previous edition 9780134567730

Publication date 23-01-2021

Pearson

Pages

RRP \$69.99

## Short description

For courses in Physiological Psychology and Biopsychology. Revel® Biopsychology, 11e presents a clear, engaging introduction to the discipline through a unique combination of biopsychological science and personal, reader-oriented discourse. Addressing students directly, the authors interweave the fundamentals of the field with clinical case studies, social issues, personal implications, useful metaphors, and memorable anecdotes. The 11e incorporates two new emerging themes ("thinking about epigenetics" and "consciousness") and includes up-to-date coverage of recent developments in the field.

Revel empowers students to actively participate in learning. More than a digital textbook, Revel delivers an engaging blend of author content, media, and assessment. With Revel, students read and practice in one continuous experience, anytime, anywhere, on any device.

Discipline/Subject  
Psychology

## Author bio

John Pinel obtained his Ph.D. from McGill University in Montreal and worked briefly at the Massachusetts Institute of Technology before taking a faculty position at the University of British Columbia in Vancouver, where he is currently Professor Emeritus.

Previous edition 9780134635880

Publication date 09-06-2021

Pearson

Pages

RRP \$69.99

## Short description

Revel® Invitation to Psychology weaves scientific and critical thinking into the fabric of psychological science. The authors empower students to separate fact from fiction and to distinguish wishful thinking from thinking wisely. In so doing, the authors inspire students to ask questions and be willing to wonder, essential skills for learning how to think like psychologists. The 8e has been updated with engaging new features and coverage of impactful recent events such as the widely felt implications of the COVID-19 pandemic.

Revel empowers students to actively participate in learning. More than a digital textbook, Revel delivers an engaging blend of author content, media, and assessment. With Revel, students read and practice in one continuous experience, anytime, anywhere, on any device.

# Drugs, Behavior, and Modern Society [RENTAL EDITION]

Edition 9

Charles F. Levinthal

Pearson

Rights sold

9780135385340

Previous edition 9780134003108

Publication date 01-09-2022

Pearson

Pages

RRP \$59.99

## Short description

The use and abuse of a wide range of licit and illicit drugs are discussed from historical, biological, psychological, and sociological perspectives.

In today's world, drugs and their use present a social paradox, combining the potential for good and for bad. As a society and as individuals, we can be the beneficiaries of drugs or their victims. This text features a comprehensive review of psychoactive drugs, and is notable for the attention it gives to two aspects of drug-taking behavior that have been underreported in other texts: steroid abuse and inhalant abuse.

## Discipline/Subject

Save money up front. Want to keep it at the end of the term? That's an option too.

Rights sold Turkish

9780136817826

Previous edition

Publication date 01-02-2022

Pearson

Pages 624

RRP \$49.99

## Short description

A concise guide to the psychology of effective teaching Essentials of Educational Psychology focuses on the big ideas that impact teaching and learning in 10 concise, conversational chapters. It offers an overview of theories and research related to learning, development, motivation and assessment. Exercises help students understand concepts by examining their own learning. Research-based strategies show students how to apply these concepts as teachers. The 6th Edition more seamlessly connects theories to principles, and principles to teaching strategies. Enhanced with new figures and references, it reflects current research and strategies.

## Discipline/Subject

# Introduction to Forensic and Criminal Psychology 7e, Dennis Howitt

CST 2022:  
UK – p306  
CE – pTBC

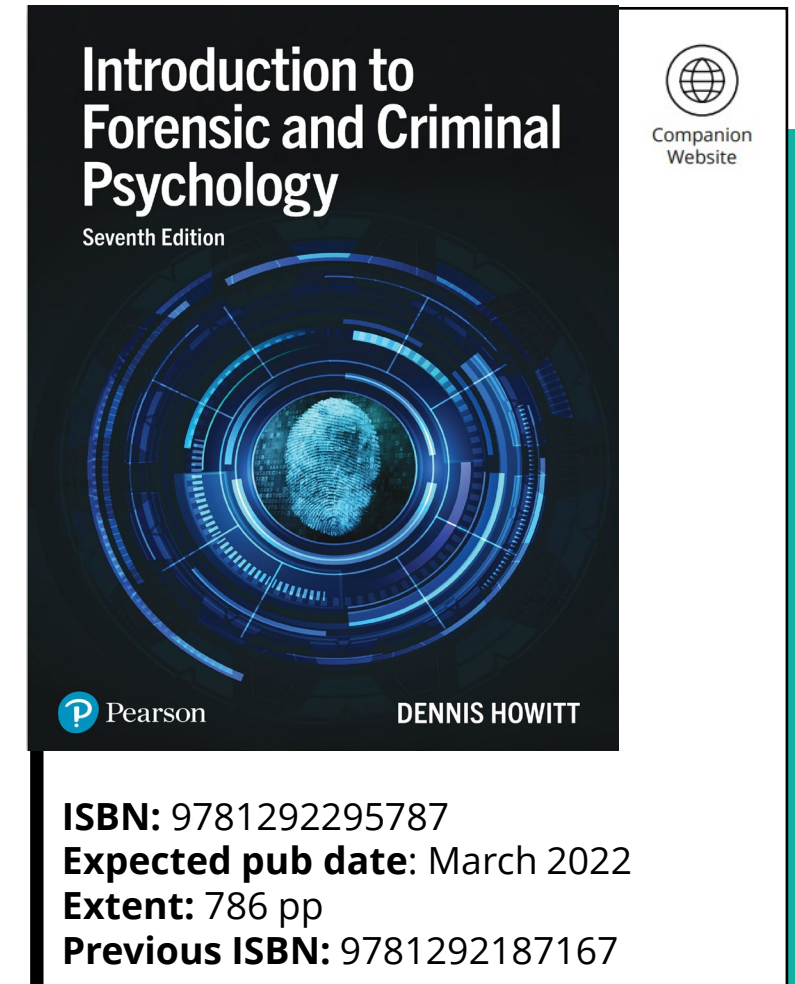

How will you generate sales with this product in 2022?

- **Market-leading** with emphasis on **key contemporary research**.
- **New material** for **COVID-19 on crime** and **police use of force**.
- **Crime and the internet** is featured throughout.
- Emphasis on **critical thinking** - 'Controversies' feature get students thinking, debating and engaged.

## How we beat the competition:

**Davies & Beech, *Forensic Psychology: Crime, Justice, Law, Interventions* 3e, 2017 (Wiley)**

Market leading text, includes relevant research studies, new material on COVID-19 & law/police.

# Personality, Individual Differences and Intelligence 5e, John Maltby et al

CST 2022:  
UK – p298  
CE – pTBC

How will you generate sales with this product in 2022?

- **Market-leading textbook.**
- Over **150 new case studies** updated and revised including new topics such as the **Dark Triad of Personality, Internet dating** and personality and **Social Media Use.**
- **Emphasis on critical thinking** – through 'Stop & Think' and dedicated critical thinking sections in the book.
- Student support with **CWS** (Short MCQs, essay questions with solutions) with **three additional skills chapters** including academic, argument and thinking.

## How we beat the competition:

**Chamorro-Premuzic, *Personality and Individual Differences* 3e, 2014 (Wiley)**

Maltby is a trusted resource, newly updated with contemporary data and topics, many new exercise questions for practice, comprehensive and lucid.

# Introduction to Health Psychology 5e, Val Morrison & Paul Bennett

CST 2022:  
UK – p306  
CE – pTBC

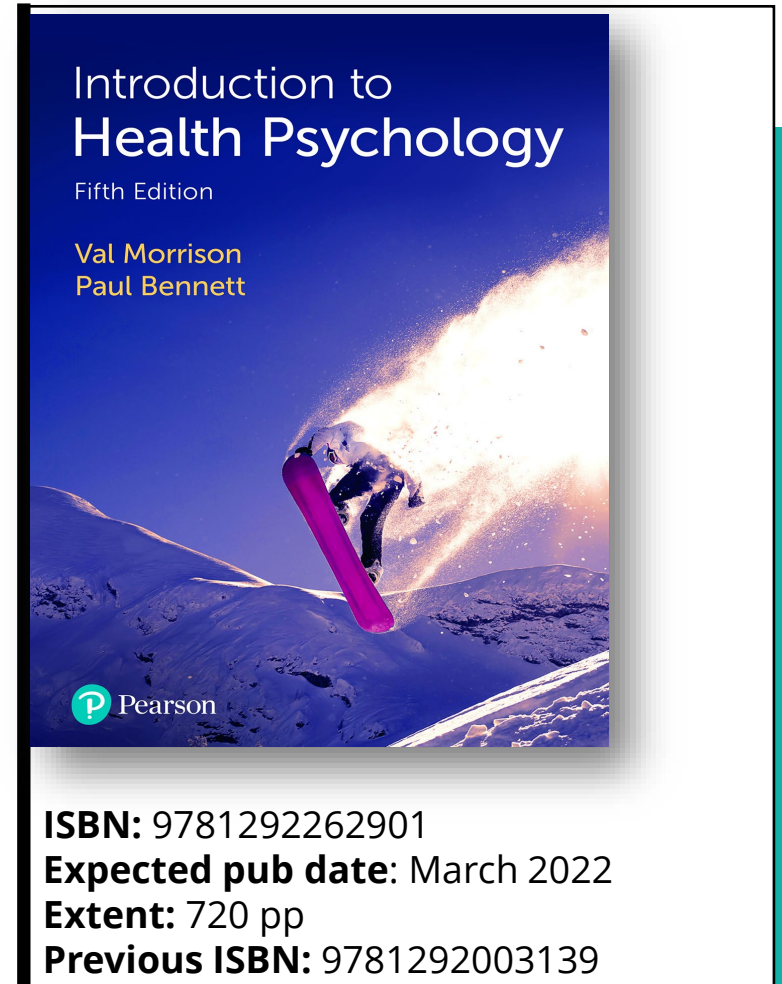

How will you generate sales with this product in 2022?

- **New material** reflecting the impact of **COVID-19** - challenges to health and clinical psychologists and the psychological effects of the pandemic.
- **Emphasis on application and critical thinking** – focused on having students reflect critically with features like 'What Do You Think', 'Research Focus', 'Spotlights' on key hot topics.
- Focus on **global health issues**, and culturally diverse and inclusive examples.

## How we beat the competition:

**Ogden, *Health Psychology* 6e, 2019 (McGraw-Hill)**

Morrison contains COVID-19 updates (Ogden not yet updated), increased focus on key areas of critical thinking development.

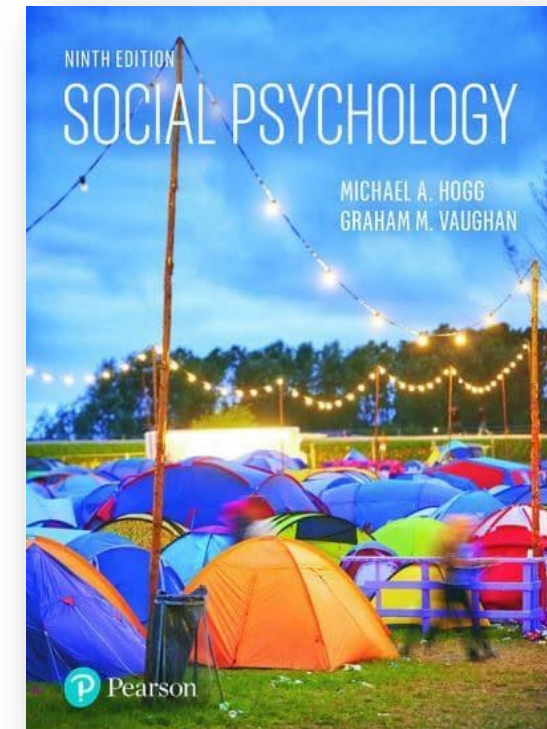

# Social Psychology 9e, Hogg & Vaughan

CST 2022:  
UK – p286  
CE – pTBC

How will you generate sales with this product in 2022?

- **Currency is key:** reflecting important advances in the field.
- In-depth & comprehensive scientific coverage.
- Unique **global approach** and perspectives.
- Lecturers & students **love the in-chapter features and boxes.**
- **Richly illustrated** with photos and diagrams to bring the subject alive.
