• Introduces students to the logic, precision, and rigor of mathematics, with learning fundamentals for success in future math courses.
• Hatfield examples that give students extra step-by-step support.
• Available as a MyLab Math for liberal arts digital course, with MathXL® for liberal arts packages also available.

• Personalized and adaptive learning
• Interactive practice with immediate feedback
• Flexible course design to fit your syllabus
• A comprehensive gradebook with enhanced reporting
• Complete eText, accessible anywhere with the Pearson eText app

With the help of our Savvas Learning Company colleagues, Pearson is working with districts throughout Illinois to determine the right solution to fit their classroom needs.

Math readiness and transition courses for Illinois
As a result of the Postsecondary and Workforce Readiness Act in Illinois, high schools are implementing new math courses for students, including transitional mathematics. During the pilot phases, Pearson collaborated with many local community colleges to identify what Illinois educators need for a successful program. Pearson print and blended programs meeting this need include:

MyMathLab for School
Whether you are looking for digital support for your blended classroom or a 100% digital solution to support distance learning, MyMathLab for School is the world’s leading online instructional and assessment program for teaching and learning mathematics. Built around Pearson’s best selling texts, including the four titles above, MyMathLab for School provides you with:

• Personalized and adaptive learning
• Interactive practice with immediate feedback
• Flexible course design to fit your syllabus
• A comprehensive gradebook with enhanced reporting
• Complete eText, accessible anywhere with the Pearson eText app
