

Bring K-5 learning online

Online learning is an important education option in today's world and allows students to access learning safely with just their devices. Bring students in your district state-of-the-art courses that feature the latest in instructional design with Pearson Online & Blended Learning. We have a full catalog of elementary level courses.

Empower students with personalized, anytime, anywhere learning

Online learning provides students individualized, one-to-one learning opportunities that meet each student's specific interests, learning style, schedule, and abilities. It's a valuable opportunity for students and families to pave a personalized path in education that's just right for them.

Reimagine lessons with Learning Buddies

Our courses feature dynamic, engaging digital content with hands-on activities that are incorporated into every lesson to help bring learning to life. Learning Buddy activities keep elementary students even more engaged in the learning process with a "buddy" that guides students through lessons and key concepts and encourages them to apply their new knowledge.

Pearson

Flexible online learning solutions

Whether your district is looking for a permanent online learning solution, backup plan, or extra support, we can help you build a program that's right for you, including:
