Take the First Steps toward Funding Your Big Idea

At no charge, the Pearson Proposal & Grant Services team can provide resources and support—from helping you identify funding options to providing grant reviews.

We help you pursue and secure funding for Pearson products and services.

Services

Grant Research

Are you looking for grant funding for a project that includes a Pearson product or service but need help locating funding sources?

We can help you locate grants to support the goals and objectives of your project by sending you a report of grants that are a good match. You then report back to us on the grant applications you completed.

Reviews and Revisions

Before you submit your grant applications, the Pearson Proposal & Grant Services team can assess them against grant requirements. During the review process, our team will provide recommendations to strengthen your application—increasing your chances to receive necessary funding.

We Can Help

- **Define** goals and objectives
- **Identify** products and solutions that best support your project
- **Find** grants that match your project goals
- **Review** grant proposals to strengthen them
