

**Connections Education of Florida, LLC
Full Time District VIP State Test Proficiency Data**

Results below are for the Connections Education of Florida, LLC Full-Time District VIP programs for the 2016-17 and 2017-18 school years. Values in the tables are based on all available student test results from a given year; note, however, that not all grade levels may have been served in any given year. Because the numbers of students participating in these programs is very small, we have combined subject area data for all tested grade levels; data would not be reported for groups smaller than 10. The percent proficient is the percentage of tested students scoring at Levels 3, 4, or 5 on the FCAT or FCAT 2.0 for Math, Reading, or Science.

Connections Education of Florida, LLC
Full Time District VIP Subgroup Performance

Subgroups are based on currently used Federal reporting categories. Results are based on all available test scores and, consistent with ESSA reporting rules for Florida, are not presented for groups with fewer than 10 students for a given year. Some results are suppressed by grade on FCAT reporting site due to insufficient students per category. No data for FCAT Science or for Algebra I, Geometry, Biology, Civics, and US History EOC Exams is included here because all data would be suppressed due to the low number of students enrolled.
