Let's look at three outstanding features

12

00:00:28,928 --> 00:00:31,398  
of MyLab IT NextGen.

13

00:00:31,398 --> 00:00:33,500

First, consider the Course Homepage.

14

00:00:35,201 --> 00:00:36,903

There's a wealth of critical information

15

00:00:36,903 --> 00:00:38,805

right at your fingertips.

16

00:00:38,805 --> 00:00:40,407

Important details and data

17

00:00:40,407 --> 00:00:42,542

on course notifications,

18

00:00:42,542 --> 00:00:44,344

class statistics for completed work,

19

00:00:45,512 --> 00:00:47,313

recent gradebook results,

20

00:00:48,248 --> 00:00:51,251

upcoming assignments and more.

21

00:00:52,986 --> 00:00:54,120

Secondly, here's the

22

00:00:54,120 --> 00:00:56,790

26

00:01:02,328 --> 00:01:03,430

and to reorder them.

27

00:01:04,998 --> 00:01:06,266

Tagging specific assignments

28

00:01:06,266 --> 00:01:07,333

is also easier

29

00:01:08,535 --> 00:01:09,936

and the calendar functionality

30

00:01:09,936 --> 00:01:11,404

is more robust

31

00:01:11,404 --> 00:01:13,173

with a faster search capability.

32

00:01:14,040 --> 00:01:14,908

Assigning and setting

33

00:01:14,908 --> 00:01:16,342

dates is straightforward

34

00:01:17,444 --> 00:01:19,345

and changes will update automatically.

35

00:01:22,082 --> 00:01:24,050

Plus, you now have full coordinator

where changes made in

38  
00:01:26,119 --> 00:01:27,120  
the coordinator course

39  
00:01:27,120 --> 00:01:29,289  
will automatically flow to member courses.

40  
00:01:30,957 --> 00:01:33,193

and Auto-Graded Grader projects

47  
00:01:48,141 --> 00:01:50,043  
that monitor integrity violations,

48  
00:01:51,444 --> 00:01:52,512  
you'll have peace of mind

49  
00:01:52,512 --> 00:01:53,480  
while students master

50  
00:01:53,480 --> 00:01:55,181

their skills for the workplace.
