The Time to Offer Digital Learning is Now

Serve your student community with confidence by
partnering with Connections Learning

CONNECTIONS LEARNING®

Connections Learning—

Your Partner in Digital Education

For every school leader, an ally.

For every challenge, a solution.

For every student, success.

Connections Learning helps school leaders provide K–12 online academic solutions for their communities by offering a range of programs that can be customized to fit individual students’ needs as well as limited school resources. By combining a proven curriculum, the latest instructional tools, and certified teachers skilled in online instruction within a vibrant online or blended classroom, Connections Learning helps educators find the online academic solutions they are looking for.

Connections Learning helps school administrators create online programs for:

- Blended schools
- Comprehensive virtual school programs
- Hospitalized and homebound students
- Summer school
- CTE and STEM study

In addition, Connections Learning offers a complete online school management system and more than 600 proven, standards-aligned courses taught by certified, licensed teachers. Our online courses are “public school-tested” through Connections Academy, a pioneer in online education.

By partnering with Connections Learning, school administrators are able to bring quality online education directly to their districts or schools, and affordably and seamlessly provide solutions that are customized for each student. With Connections Learning, educators can serve their communities well while being good stewards of their limited budgets.

Connections Learning Advantages

- Quality Curriculum
- Quality Teachers
- Cutting-Edge Technology
- Accreditation
- Proven Performance
- NCAA® Approved

Flexibility and Ease of Implementation

Connections Learning will custom configure a solution for your school or district—
and that's just the beginning!

Whether you are seeking to serve one student or hundreds of students, Connections Learning can help you create a program to suit your needs. From individual online courses, to a full-time online program; from blended solutions, to specialized packages such as STEM or homebound instruction, our team helps identify the right solution for you. And it doesn't end there! Connections Learning's dedicated Program Managers support you and your program from development to implementation.

Online Courses

Connections Learning lets you offer more than 600 online courses for K-12 that combine standards-aligned curriculum, an expert teacher, and a state-of-the-art learning platform. Provide Advanced Placement® (AP®), foreign languages, gifted courses, and other programming that you are unable to deliver in your brick-and-mortar schools. We provide regular progress tracking and a transcript upon completion of the course. Our courses are “public school-tested” with outstanding academic results and satisfaction ratings of over 90%.

Full Time Virtual School

When you open a virtual school in partnership with Connections Learning, we bring together highly personalized learning, expert virtual teachers, a proven curriculum, 21st century technology tools, and rich community experiences to create a supportive and successful school environment. Your virtual school is bound to deliver dividends—for your students and for you.

Blended Programs

Take the personalization of online learning, add extra face-to-face support, and what do you get? Blended learning, which has been shown by the U.S. Department of Education, to be even more effective for many students than either online or in-person instruction alone. If you have students who need a structured alternative to the traditional classroom, a Connections Learning blended program might be your answer. Find out what districts throughout the country are discovering about the power of the Connections Learning blended model!

Hospitalized and Homebound Students

Meeting the needs of students who are homebound, hospitalized, or in treatment is a real challenge for most schools and districts today. Whether suffering from illnesses or temporarily sidelined by an injury, the last thing these struggling students need is the added blow of missing weeks or months of real academic care. Today's "digital native" students need a solution that is more engaging and flexible than the old-school visiting teacher approach, and you want a solution that is easier on your budget, especially in today's cost-cutting environment. Connections Learning hospital and homebound program offers schools and districts a new paradigm in effectively, compassionately, and efficiently serving these students.

Online Summer School

The days of classrooms filled with students in the middle of July—and all of the expenses associated with the summer school programs—are *virtually* a thing of the past. The face of summer school is changing, and with Connections Learning online summer school, your students now have the option to make up credits, accelerate their studies, and get the additional support they need... all with the flexibility of *any time, any place* instruction! Utilizing familiar technology, Connections Learning is able to reach students where they are, giving them the best chance for success.

STEM Special

There is no question that improving American students' mastery of STEM—science, technology, engineering, and mathematics—is an urgent national priority. But meeting that priority can be a huge challenge for many schools. From the shortage of excellent math and science teachers, to outdated or nonexistent lab facilities, to the lack of engaging curriculum resources for today's technology-oriented students, schools and districts find themselves falling far short on STEM. Wouldn't you love to have expert STEM teachers plus cutting-edge tools and content available to your students with the click of a mouse? That's what you get with Connections Learning's STEM Special program which can be custom-tailored to your school needs.

Connexus® School Management System

As online and blended learning play an ever-important role in your school or district, you need a cutting-edge way to organize, track and meet student learning needs, and facilitate communication and interaction among all stakeholders. A growing number of public schools across the country are managing their digital futures with the platform built from the ground up specifically for K-12 education: the Connexus online school management system from Connections Learning. This robust, completely integrated solution combines a next-wave learning management system (LMS) and content management system (CMS) with an integrated student information system (SIS) and a full suite of communications tools. Highly scalable, cost-effective, and public school-proven, Connexus can be your whole-school management tool.

Starting Your Digital Learning Program is Easy

Connections Learning is your full-service partner in setting up your digital learning program. We will match your needs to a single product or a suite of solutions designed especially for your district or school. Start your digital learning program with confidence when you work with Connections Learning.

Through a partnership with Connections Learning, you can:

- Offer over 600 online courses for K-12 students one-by-one, as part of a blended program, or through a full district-run virtual program implementation
- Provide online instruction for students who are homebound or in treatment
- Deliver web-based summer school, credit online, and STEM
- Manage your brick-and-mortar, blended, or virtual program through Connexus, our all-in-one school management system

Pearson is an organization devoted to helping school administrators provide K-12 online academic solutions for their communities. It's time for you to start your school or district digital program by contacting Connections Learning today!
