

Online Summer School 2016

Give your students summer freedom and online flexibility.

Your district can offer an innovative summer school option this year that allows your students to stay engaged academically while still enjoying the freedom of summer. Connections Learning helps schools and districts offer **online summer school programs** that address students' needs, adapt to family vacation schedules, and help protect district budgets.

Online summer school allows your students to stay engaged academically while still enjoying the freedom of summer.

Students can explore new interests and build new skills

With more than 100 different online courses to choose from, a Connections Learning online summer school solution can suit every student's needs. Whether you have high school seniors needing math credits for graduation or parents seeking a summer enrichment activity for their kindergartner, our summer programs can help:

- **Original Credit Courses** help students satisfy graduation requirements, explore their interests, or accelerate their academic progress in courses ranging from digital photography to computer technology to math.
- **High School Credit Recovery Courses** ensure students earn the credits to move forward and acquire the skills to succeed.
- **Career and Technical Education (CTE) Courses** help your high school students explore and further develop interests and earn credits at the same time. From Business to Criminal Justice to Psychology, our CTE courses can help turn curiosities into careers.
- **Educational Technology Courses** for students in K-8 combines essential reading and math skills with technology instruction, making learning fun and relevant for today's tech-savvy student.

“Rolling” Start and End Dates

Connections Learning's online summer school courses have great flexibility to fit your district's or school's summer schedule.

- Choose your start date (June 7th, June 14th, June 21st, June 28th; July 5th and July 12th)
- Last day is August 9th

Call (866) 842-7428 today to set up your summer program!

Educational Technology Courses

These programs offer students in grades K–8 essential technology skills for their age. While focusing on technology skills in which all students are required to possess by the end of the 8th grade, these programs reinforce reading, language arts, and math skills. If you wish to accelerate your student’s current technology knowledge, it is suggested to place him or her in an advanced grade level program.

Courses

Educational Technology – Kindergarten
Educational Technology – 1st Grade
Educational Technology – 2nd Grade
Educational Technology – 3rd Grade
Educational Technology – 4th Grade
Educational Technology – 5th Grade
Educational Technology – 6th Grade
Educational Technology – 7th Grade
Educational Technology – 8th Grade

Music Education

Children from Kindergarten through 8th grade can gain a greater understanding of music through hands-on music activities and study of music repertoire. These music courses can serve as a primary introduction to music concepts or can supplement your student’s current music education for a richer experience.

Courses

Experiencing Music I (K–2)
Discovering Music I (3–5)
Exploring Music I (6–8)
