Language Arts Department

Leeward Community College, Pearl City, HI

What is the biggest benefit of using Pearson Writer?

Pearson Writer is an easy, convenient tool for student writers to use. I noticed that students who used Writing Review had clear writing that was almost error-free, and their citations were done correctly. Students who did not use Pearson Writer submitted papers filled with grammatical errors and had citations that were incorrect.

What are the two most compelling features of Pearson Writer?

My Projects and Cite a Source

How have you integrated Pearson Writer into your course?

I required my students to submit drafts to Write Review before they turned in revisions. I also required them to use Pearson Writer to build each citation for their last paper. Students commented a lot about the Write Review and also the My Projects tool that helped to develop research writing projects.

What students at Leeward Community College had to say about Pearson Writer:

“My favorite feature was the Cite a Source page. It was easy to use and very helpful. I tend to forget the correct way of citing different sources, and this feature made it very easy to cite sources properly.”

“It is amazing how fast Writing Review analyzes and shows exactly what you need to fix.”

“Pearson Writer helped me to revise many of my essays for English 100. It helped me with grammar, sentence structure, organization, and citations.”
